MANNER OF PAYMENT AND PAYMENT BUSINESS DAY**

(1) *Manner of Payment.* Subject to applicable fiscal and other laws and regulations, payments of amounts due in respect of the Notes shall be made in the Specified Currency.

If the Issuer determines that it is impossible to make payments of amounts due on the Notes in freely negotiable and convertible funds on the relevant due date for reasons beyond its control or that the Specified Currency or any successor currency provided for by law (the "**Successor Currency**") is no longer used for the settlement of international financial transactions, the Issuer may fulfil its payment obligations by making such payments in Euro on the relevant due date on the basis of the Applicable Exchange Rate. Holders shall not be entitled to further interest or any additional amounts as a result of such payment. The "**Applicable Exchange Rate**" shall be (i) (if such exchange rate is available) the exchange rate of Euro against the Specified Currency or the Successor Currency (if applicable) determined and published by the European Central Bank for the most recent calendar day falling within a reasonable period of time prior to the relevant due date, or (ii) (if such exchange rate is not available) the exchange rate of Euro against the Specified Currency or the Successor Currency (if applicable) which the Calculation Agent has calculated as the arithmetic mean of offered rates concerning the Specified Currency or the Successor Currency (if applicable) quoted to the Calculation Agent by four leading banks operating in the international foreign exchange market for the most recent calendar day falling within a reasonable (as determined by the Calculation Agent in its reasonable discretion) period of time prior to the relevant due date, or (iii) (if such exchange rate is not available) the exchange rate of Euro against the Specified Currency or the Successor Currency (if applicable) as determined by the Calculation Agent in its reasonable discretion.

If the Maturity Date of the Notes is adjusted, the Holder shall not be entitled to payments in respect of such adjustment.

§ 5 MARKET DISRUPTIONS IN RESPECT OF INDICES

(a) Market Disruptions

If the Calculation Agent determines that any Reference Date is a Disrupted Day, then the Reference Date for the Index shall be the first succeeding Scheduled Trading Day that the Calculation Agent determines is not a Disrupted Day in respect of the Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days up to and including the Reference Cut-Off Date is a Disrupted Day. In that case or if any Reference Date falls on the Reference Cut-Off Date as the original date on which it was scheduled to fall is not a Scheduled Trading Day:

(i) that Reference Cut-Off Date shall be deemed to be the Reference Date for the Index, notwithstanding the fact that such day is a Disrupted Day or is not a Scheduled Trading Day; and

(ii) the Calculation Agent shall determine the relevant level or price of the Index on that Reference Cut-Off Date in accordance with the formula for and method of, calculating the Index last in effect prior to the Reference Cut-Off Date and using its good faith estimate of the value for the components of the Index (and such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the Index Level in respect of the relevant Reference Date).

(b) Notification

The Calculation Agent shall give notice, as soon as practicable, to the Holders in accordance with § 11 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been a Reference Date. Any failure by the Calculation Agent to so notify the Holders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence or the consequences of such Disrupted Day.

(c) Definitions

"**Valuation Date**" has the meaning as defined in § 3 of the Issue Specific Conditions.

"**Index**" has the meaning as defined in § 3 of the Issue Specific Conditions.

causing a Disrupted Day, would have been a Reference Date.

§ 6

ADJUSTMENTS IN RESPECT TO THE INDEX

(a) Adjustments

(i) If an Index is (1) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (2) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index, then that index (the "**Successor Index**") will be deemed to be the Index.

(ii) If the Calculation Agent determines that, (1) on or prior to any Reference Date or other relevant date, the Index Sponsor makes or announces that it will make a material change in the formula for, or the method of, calculating a relevant Index, or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in the Components, capitalization and/or other routine events) (an "**Index Modification**"), or permanently cancels the Index and no Successor Index exists as at the date of such cancellation (an "**Index Cancellation**"), or (2) on any Reference Date or other relevant date, the Index Sponsor fails to calculate and announce the relevant Index Level (an "**Index Disruption**" (provided that, the Calculation Agent may, in its reasonable discretion, determine that such event instead results in the occurrence of a Disrupted Day) and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**") then:

(aa) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, may elect to calculate the relevant Index Level using, in lieu of a published level for that Index, the level for that Index on that Reference Date or other relevant date, as the case may be, as determined by the Calculation Agent in accordance with the formula for, and method of, calculating that Index last in effect prior to the relevant Index Adjustment Event, but using only those Components that comprised that Index immediately prior to that Index Adjustment Event; or

(bb) the Calculation Agent may elect to determine, in its reasonable discretion, the appropriate adjustment, if any, to be made to any of the terms of these Issue Specific Conditions to account for the Index Adjustment Event and determine the effective date of that adjustment; or

(cc) the Calculation Agent may elect to select a successor index with a substantially similar strategy as the original Index and, upon selection of such index, the Calculation Agent shall promptly notify the Holders in accordance with § 11 of the General Conditions and such index shall become the Successor Index and deemed to be the 'Index' for the purposes of the Notes and the Calculation Agent will make such adjustment, if any, to these Issue Specific Conditions to account for the Successor Index and determine the effective date of that adjustment; or

(dd) provided that, in the determination of the Calculation Agent, the provisions according to (aa) to (cc) above would not achieve a commercially reasonable result, on giving notice to Holders in accordance with § 11 of the General Conditions, the Issuer shall redeem the Notes in whole but not in part, each Note being redeemed by payment of an amount equal to the fair market price of such Note taking into account the Index Adjustment Event, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps, or other securities of any type whatsoever hedging the Issuer's obligations under the Notes), all as determined by the Calculation Agent in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with § 11 of the General Conditions.

(b) Correction of Index Level

If the level of the relevant Index published by the Index Sponsor on any date which is utilized for any calculation or determination (a "**Relevant Calculation**") is subsequently corrected and the correction is published by the Index Sponsor (the "**Corrected Index Level**") no later than two Business Days prior to the date of payment of any amount to be calculated by reference to the

Relevant Calculation then such Corrected Index Level shall be deemed to be the relevant level for such Index on such day and the Calculation Agent shall use such Corrected Index Level in determining the relevant level.

§ 7 ADDITIONAL DISRUPTION EVENTS

If any Additional Disruption Event occurs, the Issuer, in its reasonable discretion, may:

(i) require the Calculation Agent to determine, in its reasonable discretion, the appropriate adjustment, if any, to be made to any of the terms of these Issue Specific Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment; or

(ii) terminate the Notes in whole but not in part by giving notice to Holders in accordance with § 11 of the General Conditions. If the Notes are so redeemed, the Issuer will pay to each Holder, in respect of each Note held by such Holder, an amount equal to the fair market price of the Notes taking into account the Additional Disruption Event, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps, or other securities of any type whatsoever hedging the Issuer's obligations under the Notes), all as determined by the Calculation Agent in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with § 11 of the General Conditions.

Upon the occurrence of an applicable Additional Disruption Event, the Issuer shall give notice, as soon as practicable, to the Holders in accordance with § 11 of the General Conditions, stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

"Hedge Positions" means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives, or foreign exchange, (ii) stock loan transactions, or (iii) other arrangements (howsoever described) by the Issuer and/or any of its affiliates in order to hedge, individually or on a portfolio basis, its obligations under the Notes.

"Hedging Disruption" means that the Issuer and/or any of its affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (ii) realize, recover, or remit the proceeds of any such transaction(s) or asset(s).

"Administrator/Benchmark Event" means, in respect of any Note and a Relevant Benchmark, the occurrence or existence, as determined by the Calculation Agent, of any of the following events in respect of such Relevant Benchmark:

(a) **"Non-Approval Event"**, being any of the following:

(i) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not obtained;

(ii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not included in an official register; or

(iii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark does not fulfil any other legal or regulatory requirement applicable to the Notes or the Relevant Benchmark,

in each case, if required in order for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmark Regulation. For the avoidance of doubt, a Non-Approval Event shall not occur if the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence decision or approval is

suspended if, at the time of such suspension, the continued provision and use of the Relevant Benchmark is permitted in respect of the Notes under the Benchmark Regulation during the period of such suspension;

(b) a "**Rejection Event**", being the relevant competent authority or other relevant official body rejects or refuses any application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register which, in each case, is required in relation to the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmark Regulation; or

(c) a "**Suspension/Withdrawal Event**", being any of the following:

- (i) the relevant competent authority or other relevant official body suspends or withdraws any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark which is required in order for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmark Regulation; or
- (ii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is removed from any official register where inclusion in such register is required in order for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmark Regulation.

For the avoidance of doubt: a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Relevant Benchmark is permitted in respect of the Notes under the Benchmark Regulation during the period of such suspension or withdrawal.

"**Benchmark Regulation**" means Regulation (EU) 2016/1011 of the European Parliament and the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 (as may be amended from time to time), including any subsidiary legislation or rules and regulations and associated guidance.

"**Increased Cost of Hedging**" means that the Issuer and/or any of its affiliates would incur a materially increased (as compared with circumstances existing on the Strike Fixing Date) amount of tax, duty, expense, or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind, or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (ii) realize, recover, or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its affiliates shall not be deemed an Increased Cost of Hedging.

"**Change in Law**" means that, on or after the Strike Fixing Date, due to (i) the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) the promulgation of or any change in the interpretation by any court, tribunal, or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines, in its reasonable discretion, that (y) it has become illegal for the Issuer and/or any of its affiliates to hold, acquire, or dispose of relevant Hedge Positions (including any Components comprised in an Index), or (z) the Issuer and/or any of its affiliates will incur a materially increased cost in performing its obligations under the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit, or other adverse effect on its tax position).

"**Relevant Benchmark**" means any rate, level, price, value or other figure in respect of one or more underlyings or other index utilised in order to determine the amount of interest and/or principal and/or any other amount payable or asset deliverable under the Notes, in each case, which is a "benchmark" for the purposes of the Benchmark Regulation, as determined by the Calculation

Agent.

"Additional Disruption Event" means any Change in Law, Hedging Disruption, Increased Cost of Hedging and/or Administrator/Benchmark Event.

- Erste Group may be affected by the current setup of the Eurozone and the European Union.
- Erste Group may in the future continue to experience deterioration in

credit quality, particularly as a result of financial crises or economic downturns.

- Erste Group is subject to significant counterparty risk, and defaults by counterparties may lead to losses that exceed Erste Group's provisions.
- Erste Group's hedging strategies may prove to be ineffective.
- Erste Group is generally exposed to market volatility when it comes to loans covered by real estate collateral.
- Market fluctuations and volatility may adversely affect the value of Erste Group's assets, reduce profitability and make it more difficult to assess the fair value of certain of its assets.
- Erste Group is subject to the risk that liquidity may not be readily available.
- Credit rating agencies may suspend, downgrade or withdraw a credit rating of Erste Group Bank and/or a local entity that is part of Erste Group or a country where Erste Group is active, and such action might negatively affect the refinancing conditions for Erste Group Bank, in particular its access to debt capital markets.
- New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could subject Erste Group to increased capital and MREL requirements or standards and require it to obtain additional capital, liabilities eligible for MREL purposes or liquidity in the future.
- The Issuer is subject to the risk of changes in the tax framework, in particular regarding banking taxes.
- The Issuer is obliged to contribute to the Single Resolution Fund (SRF) and to ex ante financed funds of the deposit guarantee scheme of the savings bank sector on an annual basis.
- Erste Group's risk management strategies, techniques and internal control procedures may leave it exposed to unidentified or unanticipated risks.
- Erste Group's business entails several forms of operational risks.
- Erste Group Bank may be required to provide financial support to troubled banks in the Haftungsverbund, which could result in significant costs and a diversion of resources from other activities.
- Changes in interest rates are caused by many factors beyond Erste Group's control, and such changes can have a material adverse effect on its net interest income.
- Since a large part of Erste Group's investments, operations, assets and customers are located in CEE countries that are not part of the Eurozone, Erste Group is exposed to currency risks.
- Erste Group Bank's profit can be lower or even negative.

- A change of the ECB's collateral standards could have an adverse effect on the funding of Erste Group and access to liquidity.
- Erste Group operates in highly competitive markets and competes against large international financial institutions as well as established local competitors.
- Erste Group Bank's major shareholder may be able to control shareholder actions.
- Changes in consumer protection laws as well as the application or interpretation of such laws might limit the fees and other pricing terms that Erste Group may charge for certain banking transactions and might allow consumers to claim back certain of those fees and interest already paid in the past.
- Potential future acquisitions may create additional challenges.
- Committed EU funds may not be released or further aid programmes may not be adopted by the EU and/or international credit institutions.
- Loss of customer confidence in Erste Group's business or in banking businesses generally could result in unexpectedly high levels of customer deposit withdrawals.
- Liquidity problems experienced by certain CEE countries may adversely affect the broader CEE region.
- Governments in countries in which Erste Group operates may react to financial and economic crises with increased protectionism, nationalisations or similar measures.
- The legal systems and procedural safeguards in many CEE countries and, in particular, in the Eastern European countries are not yet fully developed.
- Applicable bankruptcy laws and other laws and regulations governing creditors' rights in various CEE countries may limit Erste Group's ability to obtain payments on defaulted loans and advances.
- Erste Group may be required to participate in or finance governmental support programs for credit institutions or finance governmental budget consolidation programmes, through the introduction of banking taxes and other levies.

D.3, D.6 Key information on the key risks that are specific to the securities

RISK WARNING: Investors should be aware that they may lose the value of their entire investment or part of it, as the case may be. However, each investor's liability is limited to the value of his investment (including incidental costs).

Risk factors relating to an Index or Index Basket as reference asset

- Factors having a negative effect on the Performance of the Index may also affect the market price and Redemption Amount of the Notes.
- In case the Notes relate to a price index the performance of the Notes

will not take into account dividends and other distributions, since they are not reflected in the price of such index.

- The Issuer has no influence on the existence, composition and calculation of the Index.
- Certain events in relation to the Index may result in an adjustment or early redemption of the Notes.
- The sponsor of the Index does not carry out any activity which affects the value of the Index and does not issue investment recommendations regarding the Index.
- If one or several components of the Index underlying the Notes are linked with emerging markets, a holder of securities must expect considerable political and economic uncertainty, which may considerably affect the price development of the Notes.
- Holders of securities do not have any rights to the components of the Index underlying the Index.
- Holders may be exposed to the risk that any changes to the relevant Index which qualifies as a benchmark index may have a material adverse effect on the market price of and the amount payable under the Notes who are linked to a benchmark.
- If the index is a "benchmark" under the Benchmark Regulation and if the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration or, if a non-EU entity, "equivalence" is not available and it is not recognised, then the Notes may be redeemed prior to maturity or certain adjustments may be made.

Risk factors relating to conflicts of interest

- The Issuer may engage in activities that could involve certain conflicts of interest and may affect the market price of the Notes.

Risks related to the pricing of the Notes

- The issue price of the Notes may include a margin on the mathematical (fair) market price of the Notes.
- Since the Issuer will, when determining the price of the securities on the secondary market, also take into account, in particular, the subscription fee (*agio*), the spread between bid and ask prices as well as commission and other fees in addition to the mathematical (fair) market price of the Notes, the prices quoted by the Issuer may considerably deviate from the fair market price of the Notes.

Risks in connection with eligible liabilities instruments

- The qualification of the Notes as Eligible Liabilities Instruments is subject to uncertainty.
- The Notes may be redeemed prior to maturity for taxation and/or regulatory reasons.

- The Notes provide for limited events of default.
- The Notes are new types of instruments for which there is no trading history.

Risks related to Notes generally

- In the event that any Notes are redeemed prior to their maturity, a Holder of such Notes is exposed to risks that the Notes will be redeemed at the fair market price minus costs (but at least 100 per cent. of the principal amount per Note) and the risk that he may only be able to reinvest the redemption proceeds in notes with a lower yield (Risk of Early Redemption).
- The General Conditions of the Notes provide for resolutions of Holders, certain rights of a Holder may be amended or reduced or even cancelled by way of resolutions, which could affect the Holder negatively.
- The General Conditions of the Notes provide for the appointment of a Joint Representative, a Holder may be deprived of its individual right to pursue and enforce its rights under the relevant Terms and Conditions of the Notes against the Issuer.
- An Austrian court could appoint a trustee for the Notes to exercise the rights and represent the interests of Holders on their behalf in which case the ability of Holders to pursue their rights under the Notes individually may be limited.
- Credit ratings of Notes may not adequately reflect all risks of the investment in such Notes, credit rating agencies could assign unsolicited credit ratings, and credit ratings may be suspended, downgraded or withdrawn, all of which could have an adverse effect on the market price and trading price of the Notes.
- The Notes are governed by Austrian law, and changes in applicable laws, regulations or regulatory policies may have an adverse effect on the Issuer, the Notes and the Holders.
- Holders are exposed to the risk of statutory loss absorption.
- The Issuer is not prohibited from issuing further debt instruments or incurring further liabilities.
- In case of an insolvency of the Issuer, deposits and, where applicable, also ordinary senior unsecured claims have a higher ranking than claims of the Holders under the Notes.

Risks related to the market generally

- Holders are exposed to the risk of partial or total inability of the Issuer to make interest and/or redemption payments under the Notes.
- Holders assume the risk that the credit spread of the Issuer widens resulting in a decrease in the market price of the Notes.
- The Holder may be exposed to the risk that due to future money

depreciation (inflation), the real yield of an investment may be reduced.

- A liquid secondary market for the Notes may not develop or, if it does develop, it may not continue. In an illiquid market, a Holder may not be able to sell his Notes at fair market prices.
- No conclusion may be drawn from the indicated Aggregate Principal Amount in case of "up to" Notes.
- There is a risk that trading in the Notes or underlyings will be suspended, interrupted or terminated, which may have an adverse effect on the market price of such Notes.
