"Erste Group's outlook as presented in the interim report for the first half year 2015 is as follows:

Operating environment anticipated to be conducive to credit expansion

Real GDP growth is expected to be between 2% and 4% in all major CEE markets, except Croatia, driven by solid domestic demand. For Austria, a real GDP growth below 1% is forecast.

Return on tangible equity (ROTE) expected at 8 to 10% in 2015 (tangible equity at the year-end 2014: EUR 8.4 billion)

Operating result is expected to decline in the mid-single digits on the back of lower but sustainable operating results in Hungary (due to FX conversion related effects of lower average volume) and Romania (lower unwinding impact) as well as the persistent low interest rate environment.

For 2015, loan growth in the low single digits and a decline in risk costs to about EUR 0.9-1.1 billion are anticipated. Banking levies are expected to amount to about EUR 360 million, including parallel contributions to national as well as European bank resolution and deposit insurance funds. Related discussions with the Austrian government are still ongoing.

Risks to guidance

Consumer protection initiatives such as a potential CHF borrower support scheme in Croatia as well as geopolitical risks could have negative economic impacts."
