6. AMENDMENTS TO THE SECTION ENTITLED "5. ERSTE GROUP BANK AG" COMMENCING ON PAGE 189 OF THE ORIGINAL PROSPECTUS

The information contained in the subsection entitled "5.5 RECENT DEVELOPMENTS" commencing on page 201 of the Original Prospectus, shall be replaced by the following information:

"Erste Group's outlook as presented in the annual report 2018 is as follows:

Erste Group targets a return on tangible equity (ROTE) of above 11% in 2019. The expected solid macro-economic development in the core markets Czech Republic, Slovakia, Hungary, Romania, Croatia, Serbia and Austria, compared to 2018 only moderately rising interest rate levels in several of Erste Group's markets and still historically low risk costs should be supportive factors to achieve this target. On the other hand, a global or regional slowdown of economic growth as well as potential – and as yet unquantifiable – political or regulatory risks might jeopardize achieving the target.

In 2019, the positive development of the economy should be reflected in growth rates (real GDP growth) of around 3% in Erste Group's CEE core markets. All other economic parameters are currently expected to be similarly robust. Unemployment rates should remain at historic lows – in the Czech Republic and in Hungary they are already among the lowest in the EU. Inflation is forecast to remain broadly stable. Strong competitive positions should again lead to current account surpluses in most countries. The fiscal situation and public debt levels are also projected to remain sound. Austria should see continued dynamic economic growth at a rate of above 2%. Overall, growth continues to be driven by domestic demand across all economies. The contribution of exports is forecast as neutral.

Against this backdrop, Erste Group expects mid-single digit net loan growth. Net interest income should thus increase further in 2019. The second key income component, net fee and commission income, is also expected to rise moderately. As in 2018, some positive momentum should again come from fund management and payment services. The other income components are expected to remain stable, by and large, despite the volatility of the net trading and fair value results. Consequently, operating income should continue to grow in 2019. Operating expenses are expected to rise in 2019, albeit not to the same extent as operating income, mostly due to anticipated further wage increases in all core markets of Erste Group. However, Erste Group will continue to invest in digitalisation and thereby its future competitiveness in 2019. The focus will be on product simplification, process standardisation as well as the group-wide implementation and expansion of the digital platform George. The roll-out of George will continue in Hungary and Croatia in 2019. Overall, the operating result is projected to rise in 2019.

Risk costs should remain low in 2019. Amid a stable low interest rate environment, risk costs should go up only slightly. Further improvements in asset quality, however, should have a dampening effect. Overall, Erste Group does not expect a recurrence of the historically low risk cost level of 2018 of -14 basis points of average gross customer loans. While precise forecasts are difficult in the current environment, Erste Group projects for 2019 risk costs of 10 to 20 basis points of average gross customer loans.

The Romanian banking tax will have a negative impact on other operating result in 2019, even though the magnitude remains as yet unclear.

Assuming a tax rate of below 20% and a similar level of minority charges, Erste Group aims to achieve a return on tangible equity (ROTE) of above 11%.

Due to its limited presence in the United Kingdom, Erste Group does not anticipate any material impact from Brexit at the current time.

Potential risks to the guidance are interest rate trends that differ from expectations, political or regulatory measures targeting banks as well as geopolitical and global economic developments."
