§ 5

Market Disruptions in respect of the Index

(a) Market Disruptions

If the Calculation Agent determines that any Reference Date is a Disrupted Day, then the Reference Date for the Index shall be the first succeeding Scheduled Trading Day that the Calculation Agent determines is not a Disrupted Day in respect of the Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days up to and including the Reference Cut-Off Date is a Disrupted Day. In that case or if any Reference Date falls on the Reference Cut-Off Date as the original date on which it was scheduled to fall is not a Scheduled Trading Day:

- (i) that Reference Cut-Off Date shall be deemed to be the Reference Date for the Index, notwithstanding the fact that such day is a Disrupted Day or is not a Scheduled Trading Day; and
- (ii) the Calculation Agent shall determine the relevant level or price of the Index as of the relevant Valuation Time on that Reference Cut-Off Date in accordance with the formula for and method of, calculating the Index last in effect prior to the Reference Cut-Off Date using the Exchange traded or quoted price as of the relevant Valuation Time on that Reference Cut-Off Date of each Component comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of any relevant Component on that Reference Cut-Off Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that Reference Cut-Off Date) (and such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the Index Level at the Valuation Time in respect of the relevant Reference Date).

(b) Notification

The Calculation Agent shall give notice, as soon as practicable, to the Holders in accordance with § 11 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been a Reference Date. Any failure by the Calculation Agent to so notify the Holders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence or the

consequences of such Disrupted Day.

(c) Definitions

"Valuation Date" has the meaning as defined in § 3 of the Issue Specific Conditions.

"Valuation Time" means in respect of a Multi Exchange Index (a) for the purposes of determining whether a Market Disruption Event has occurred in respect of (I) any Component, the Scheduled Closing Time on the Exchange in respect of such Component (provided that, if the Exchange closes prior to its Scheduled Closing Time, then the Valuation Time shall be such actual closing time), and (II) any options contracts or futures contracts on the Index, the close of trading on the Related Exchange, and (b) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor.

"Exchange" has the meaning as defined in § 3 of the Issue Specific Conditions.

"Exchange Business Day" means in respect of a Multi Exchange Index any Scheduled Trading Day on which (a) the Index Sponsor calculates and publishes the level of the Index, and (b) the Related Exchange is open for trading during its regular trading session, notwithstanding the Related Exchange closing prior to its Scheduled Closing Time.

"Exchange Disruption" means in respect of a Multi Exchange Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (a) any Component on the relevant Exchange in respect of such Component, or (b) futures or options contracts relating to the Index on the relevant Related Exchange.

"Trading Disruption" means in respect of a Multi Exchange Index any suspension or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) relating to any Component on the Exchange in respect of such Component, or (b) in futures or options contracts relating to the Index on the Related Exchange.

"Index" has the meaning as defined in § 3 of the Issue Specific Conditions.

"Index Level" means the Closing Price as defined in § 3 of the Issue Specific Conditions.

"Index Sponsor" has the meaning as defined in § 3 of the Issue Specific Conditions.

"Component" means each security or other component included in the Index.

"Market Disruption Event" means in respect of a Multi Exchange Index

(a) (I) the occurrence or existence, in respect of any Component, of:

- (A) a Trading Disruption in respect of such Component, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component is principally traded;
- (B) an Exchange Disruption in respect of such Component, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component is principally traded; or
- (C) an Early Closure in respect of such Component; and

(II) the aggregate of all Components in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of the Index; or

(b) the occurrence or existence, in each case in respect of futures or options contracts relating to the Index, of (i) a Trading Disruption, or (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange, or (iii) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists in respect of the Index at any time, if an Early Closure, an Exchange Disruption, or a Trading Disruption occurs in respect of a Component at that time, then the relevant percentage contribution of that Component to the level of the Index shall be based on a comparison of (y) the portion of the level of the Index attributable to that Component and (z) the overall level of the Index.

"Reference Cut-Off Date" means the eighth Scheduled Trading Day immediately following the Scheduled Reference Date or, if earlier, the Scheduled Trading Day falling on or immediately preceding the second

Business Day immediately preceding the due date on which payment of any amount or delivery of any assets may have to be made pursuant to any calculation or determination made on such Reference Date, provided that the Reference Cut-Off Date shall not fall prior to the original date on which such Reference Date was scheduled to fall.

"Reference Date" means the Valuation Date or, if earlier, the Reference Cut-Off Date.

"Disrupted Day" means in respect of a Multi Exchange Index any Scheduled Trading Day on which (a) the Index Sponsor fails to publish the level of the Index (provided that the Calculation Agent may, in its discretion, determine that such event instead results in the occurrence of an Index Disruption), (b) the Related Exchange fails to open for trading during its regular trading session, or (c) a Market Disruption Event has occurred.

"Related Exchange" means each exchange or quotation system (as the Calculation Agent may select) where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to the Index or, in any such case, any transferee or successor exchange of such exchange or quotation system (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange).

"Scheduled Closing Time" means in respect of the Exchange or Related Exchange the scheduled weekday closing time of the Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

"Scheduled Trading Day" means in respect of a Multi Exchange Index any day on which (a) the Index Sponsor is scheduled to publish the level of the Index, and (b) the Related Exchange is scheduled to be open for trading for its regular trading session.

"Scheduled Reference Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Reference Date.

"Early Closure" means in respect of a Multi Exchange Index the closure on any Exchange Business Day of the Exchange in respect of any Component, or the Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (a) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day, and (b) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution as at the relevant Valuation Time on such Exchange Business Day.

§ 6

Additional Disruption Events

If any Additional Disruption Event occurs, the Issuer, in its reasonable discretion, may:

- (i) require the Calculation Agent to determine, in its reasonable discretion, the appropriate adjustment, if any, to be made to any of the terms of these Issue Specific Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (ii) terminate the Notes in whole but not in part by giving notice to Holders in accordance with § 11 of the General Conditions. If the Notes are so redeemed, the Issuer will pay to each Holder, in respect of each Note held by such Holder, an amount equal to the fair market value of a Notes taking into account the Additional Disruption Event, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps, or other securities of any type whatsoever hedging the Issuer's obligations under the Notes), all as determined by the Calculation Agent in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with § 11 of the General Conditions.

Upon the occurrence of an applicable Additional Disruption Event, the Issuer shall give notice, as soon as practicable, to the Holders in accordance with § 11 of the General Conditions, stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

"Hedge Positions" means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives, or foreign exchange, (ii) stock loan transactions, or (iii) other arrangements (howsoever described) by the Issuer and/or any of its affiliates in order to hedge, individually or on a portfolio basis, its obligations under the Notes.

"Hedging Disruption" means that the Issuer and/or any of its affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (ii) realize, recover, or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its affiliates would incur a materially increased (as compared with circumstances existing on the Strike Fixing Date) amount of tax, duty, expense, or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind, or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (ii) realize, recover, or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its affiliates shall not be deemed an Increased Cost of Hedging.

"Change in Law" means that, on or after the Strike Fixing Date, due to (i) the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) the promulgation of or any change in the interpretation by any court, tribunal, or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines, in its reasonable discretion, that (y) it has become illegal for the Issuer and/or any of its affiliates to hold, acquire, or dispose of relevant Hedge Positions (including any Components comprised in an Index), or (z) the Issuer and/or any of its affiliates will incur a materially increased cost in performing its obligations under the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit, or other adverse effect on its tax position).

"Additional Disruption Event" means any Change in Law, Hedging Disruption, and/or Increased Cost of Hedging.

§ 7

Adjustments in respect to the Index

(a) Adjustments

(i) If an Index is (1) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (2) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index, then that index (the **"Successor Index"**) will be deemed to be the Index.

(ii) If the Calculation Agent determines that, (1) on or prior to any Reference Date or other relevant date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for, or the method of, calculating a relevant Index, or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in the Components, capitalization and/or other routine events) (an **"Index Modification"**), or permanently cancels a relevant Index and no Successor Index exists as at the date of such cancellation (an **"Index Cancellation"**), or (2) on any Reference Date or other relevant date, the Index Sponsor fails to calculate and announce a relevant Index (an **"Index Disruption"**) (provided that, the Calculation Agent may, in its reasonable discretion, determine that such event instead results in the occurrence of a Disrupted Day) and, together with an Index Modification and an Index Cancellation, each an **"Index Adjustment Event"**) then:

the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Index Level using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Reference Date or other relevant date, as the case may be, as determined by the Calculation Agent in accordance with the formula for, and method of, calculating that Index last in effect prior to the relevant Index Adjustment Event, but using only those Components that comprised that Index immediately prior to that Index Adjustment Event (other than those Components that have since ceased to be listed on the relevant Exchange).

If, provided that, in the determination of the Calculation Agent, the above provisions would not achieve a commercially reasonable result, on giving notice to Holders in accordance with § 11 of the General Conditions, the Issuer shall redeem the Notes in whole but not in part, each Note being redeemed by payment of an amount equal to the fair market value of such Note taking into account the Index Adjustment Event, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps, or other securities of any type whatsoever hedging the Issuer's obligations under the Notes), all as determined by the Calculation Agent in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with § 11

of the General Conditions.

(b) Correction of Index Level

If the level of the relevant Index published by the Index Sponsor on any date which is utilized for any calculation or determination (a "**Relevant Calculation**") is subsequently corrected and the correction is published by the Index Sponsor (the "**Corrected Index Level**") no later than two Business Days prior to the date of payment of any amount to be calculated by reference to the Relevant Calculation then such Corrected Index Level shall be deemed to be the relevant level for such Index on such day and the Calculation Agent shall use such Corrected Index Level in determining the relevant level.

Risks related to the business of Erste Group

- Difficult macroeconomic and financial market conditions may have a material adverse effect on Erste Group's business, financial condition, results of operations and prospects.
- Erste Group has been and may continue to be affected by the European sovereign debt crisis, and it may be required to take impairments on its exposures to the sovereign debt of certain countries.
- Erste Group has experienced and may in the future continue to experience deterioration in credit quality, particularly as a result of financial crises or economic downturns.
- Erste Group is subject to significant counterparty risk, and defaults by counterparties may lead to losses that exceed Erste Group's provisions.
- Erste Group's hedging strategies may prove to be ineffective.
- Erste Group is generally exposed to market volatility when it comes to loans covered by real estate collateral.
- Market fluctuations and volatility may adversely affect the value of Erste Group's assets, reduce profitability and make it more difficult to assess the fair value of certain of its assets.
- Erste Group is subject to the risk that liquidity may not be readily available.
- Credit rating agencies may suspend, downgrade or withdraw a credit rating of Erste Group Bank and/or a local entity that is part of Erste Group or a country where Erste Group is active, and such action might negatively affect the refinancing conditions for Erste Group Bank, in particular its access to debt capital markets.
- New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could subject Erste Group to increased capital requirements or standards and require it to obtain additional capital or liquidity in the future.
- The Issuer is subject to the risk of changes in the tax framework, in particular regarding bank tax and the introduction of a financial transaction tax.

- The Issuer may not be able to meet the minimum requirement for own funds and eligible liabilities.
- The Issuer is obliged to contribute to the Single Resolution Fund (SRF) and to *ex ante* financed funds of the deposit guarantee scheme of the savings bank sector on an annual basis.
- Erste Group's risk management strategies, techniques and internal control procedures may leave it exposed to unidentified or unanticipated risks.
- Erste Group's business entails operational risks.
- Any failure or interruption in or breach of Erste Group's information systems, and any failure to update such systems, may result in lost business and other losses.
- Erste Group may have difficulty recruiting new talent or retaining qualified employees.
- Erste Group Bank may be required to provide financial support to troubled banks in the Haftungsverbund, which could result in significant costs and a diversion of resources from other activities.
- Changes in interest rates are caused by many factors beyond Erste Group's control, and such changes can have significant adverse effects on its financial results, including net interest income.
- Since a large part of Erste Group's operations, assets and customers are located in CEE countries that are not part of the Eurozone, Erste Group is exposed to currency risks.
- Erste Group Bank's profit can be lower or even negative.
- A change of the ECB's collateral standards could have an adverse effect on the funding of Erste Group and access to liquidity.
- Erste Group operates in highly competitive markets and competes against large international financial institutions as well as established local competitors.
- Erste Group Bank's major shareholder may be able to control shareholder actions.
- Compliance with applicable rules and regulations, in particular on anti-money laundering and anti-terrorism financing, anti-corruption and fraud prevention, economic sanctions and tax as well as capital markets (securities and stock exchange related) involve significant costs and efforts and non-compliance may have severe legal and reputational consequences for Erste Group.
- Changes in consumer protection laws as well as the application or interpretation of such laws might limit the fees and other pricing terms that Erste Group may charge for certain banking transactions and might allow consumers to claim back certain of those fees and interest already paid in the past.
- The integration of potential future acquisitions may create additional challenges.

Risks related to the markets in which Erste Group operates

- The departure of any one or more countries from the Eurozone could have unpredictable consequences for the financial system and the greater economy, potentially leading to declines in business levels, write-downs of assets and losses across Erste Group's business.
- Erste Group operates in emerging markets that may experience rapid economic or political changes, either of which may adversely impact its

financial performance and results of operations.

- Committed EU funds may not be released or further aid programmes may not be adopted by the EU and/or international credit institutions.

- Liquidity problems experienced by certain CEE countries may adversely affect the broader CEE region and could negatively impact Erste Group's business results and financial condition.
- Governments in countries in which Erste Group operates may react to financial and economic crises with increased protectionism, nationalisations or similar measures.
- Erste Group may be adversely affected by slower growth or recession in the banking sector in which it operates as well as slower expansion of the Eurozone and the EU.
- The legal systems and procedural safeguards in many CEE countries and, in particular, in the Eastern European countries are not yet fully developed.
- Applicable bankruptcy laws and other laws and regulations governing creditors' rights in various CEE countries may limit Erste Group's ability to obtain payments on defaulted loans and advances.
- Erste Group may be required to participate in or finance governmental support programs for credit institutions or finance governmental budget consolidation programmes, through the introduction of banking taxes and other levies.

D.3,

D.6

Key information on the key risks that are specific to the securities

RISK WARNING: Investors should be aware that they may lose the value of their entire investment or part of it, as the case may be. However, each investor's liability is limited to the value of his investment (including incidental costs).

Risk factors relating to an Index or Index Basket as reference asset

- Factors having a negative effect on the Performance of the Index may also affect the market price and Redemption Amount of the Notes which may lead to the loss of the entire invested capital or part of it.
- In case the Notes relate to a price index the performance of the Notes will not take into account dividends and other distributions, since they are not reflected in the price of such index.
- The Issuer has no influence on the existence, composition and calculation of the Index.
- Certain events in relation to the Index may result in an adjustment or early redemption of the Notes.
- The sponsor of the Index does not carry out any activity which affects the value of the Index and does not issue investment recommendations regarding the Index.
- If one or several components of the Index underlying the Notes are linked with emerging markets, a holder of securities must expect considerable political and economic uncertainty, which may considerably affect the price development of the Notes.

- Holders of securities do not have any rights to the components of the Index underlying the Index.
- Holders may be exposed to the risk that any changes to the relevant Index which qualifies as a benchmark index may have a material adverse effect on the market price of and the amount payable under the Notes who are linked to a benchmark.

Risk factors relating to conflicts of interest

- The Issuer may engage in activities that could involve certain conflicts of interest and may affect the market price of the Notes.

Risks related to the pricing of the Notes

- The issue price of the Notes may include a margin on the mathematical (fair) market price of the Notes.
- Since the Issuer will, when determining the price of the securities on the secondary market, also take into account, in particular, the subscription fee (agio), the spread between bid and ask prices as well as commission and other fees in addition to the mathematical (fair) market price of the Notes, the prices quoted by the Issuer may considerably deviate from the fair market value of the Notes.

Risks related to Notes generally

- In the event that any Notes are redeemed prior to their maturity, a Holder of such Notes is exposed to risks that the Notes will be redeemed at the fair market value and the risk that he may only be able to reinvest the redemption proceeds in notes with a lower yield (Risk of Early Redemption).
- The General Conditions of the Notes provide for resolutions of Holders, certain rights of a Holder may be amended or reduced or even cancelled by way of resolutions, which could affect the Holder negatively.
- The General Conditions of the Notes provide for the appointment of a Joint Representative, a Holder may be deprived of its individual right to pursue and enforce its rights under the relevant Terms and Conditions of the Notes against the Issuer.
- An Austrian court could appoint a trustee for the Notes to exercise the rights and represent the interests of Holders on their behalf in which case the ability of Holders to pursue their rights under the Notes individually may be limited.
- Credit ratings of Notes may not adequately reflect all risks of the investment in such Notes, credit rating agencies could assign unsolicited credit ratings, and credit ratings may be suspended, downgraded or withdrawn, all of which could have an adverse effect on the market price and trading price of the Notes.
- The Notes are governed by Austrian law, and changes in applicable laws, regulations or regulatory policies may have an adverse effect on the Issuer, the Notes and the Holders.
- The Notes may be subject to write-down or conversion to equity upon the occurrence of a certain trigger event, which may result in Holders losing some or all of their investment in the Notes (statutory loss absorption).
- The Issuer may be subject to resolution powers which may also have a negative impact on the Notes.
- The Issuer is not prohibited from issuing further debt instruments or incurring further liabilities.
- In the case of the Issuer's insolvency, deposits have a higher ranking than the claims of the Holders under the Notes.

Risks related to the market generally

- Holders are exposed to the risk of partial or total inability of the Issuer to make

interest and/or redemption payments under the Notes.

- Holders assume the risk that the credit spread of the Issuer widens resulting in a decrease in the market price of the Notes.
- The Holder may be exposed to the risk that due to future money depreciation (inflation), the real yield of an investment may be reduced.
- There can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, a Holder may not be able to sell his Notes at fair market values.
- No conclusion may be drawn from the indicated Aggregate Principal Amount in case of "up to" Notes.
- There is a risk that trading in the Notes or underlyings will be suspended, interrupted or terminated, which may have an adverse effect on the market price of such Notes.
- Holders are exposed to the risk of an unfavourable development of market prices of their Notes which materialises if the Holder sells the Notes prior to the final maturity of such Notes.
- Exchange rate risks may occur, if a Holder's financial activities are denominated in a currency or currency unit other than the Specified Currency in which the Issuer will make principal and interest payments. Furthermore, government and monetary authorities may impose exchange controls that could adversely affect an applicable exchange rate.
- If a loan or credit is used to finance the acquisition of the Notes, the loan or credit may significantly increase the amount of a loss.
- Incidental costs related in particular to the purchase and sale of the Notes may have a significant impact on the profit potential of the Notes.
- Holders have to rely on the functionality of the relevant clearing system.
- The applicable tax regime may change to the disadvantage of the Holders; therefore, the tax impact of an investment in the Notes should be carefully considered.
- Legal investment considerations may restrict certain investments.

Risks related to taxes withheld in respect of U.S. withholding tax, including in respect of dividends, dividend equivalent payments

- Notes referencing one or more U.S. assets or U.S. corporations may be subject to U.S. withholding tax according to Section 897 (c) or Section 871(m) of the U.S. Internal Revenue Code of 1986. The Issuer will not make any additional payments to Holders of Notes to compensate them for any taxes withheld in respect of such U.S. withholding tax.

E.4 Description of any interest that is material to the issue/offer including conflicting interest:

The Issuer may from time to time act in other capacities with regard to the Notes, such as calculation agent, which allows the Issuer to calculate the value of the Underlying or any other reference asset or determine the composition of the Underlying, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the Underlying, or where the Issuer maintains a business relationship with the issuer or obligor of such securities or assets.

The Issuer may from time to time engage in transactions involving the Underlying for its proprietary accounts and for accounts under its management. Such transactions may have a positive or negative effect on the value of the Underlying or any other reference asset and consequently upon the market price of the Notes.

The Issuer may issue other derivative instruments in respect of the Underlying and the introduction of such competing products into the marketplace may affect the market price of the Notes.

The Issuer may use all or some of the proceeds received from the sale of the Notes to enter into hedging transactions which may affect the market price of the Notes.

The Issuer may acquire non-public information with respect to the Underlying, and the Issuer does not undertake to disclose any such information to any Holder.
