G4 index pursuant to the guidelines of the Global Reporting Initiative

Pursuant to the criteria of the Global Reporting Initiative ("Core"), the general standard disclosures and the specific standard disclosures for all aspects of relevance according to the materiality analysis are described in this report on the basis of the G4 indicators. Moreover, additional indicators are described.

The index lists the G4 indicators, a short description of the respective indicators and a reference, where the information is to be found (annual report or website of Erste Group Bank AG).

| Description of key impacts, risks and opportunities G43 Name of the organisation G44 Primary brands, products and services G45 Location of the organisation statements of the organisation of the organisation and services G46 Number of countries where the organisation passignities over the transplant of the substantial bility topics covered in the report G47 Nature of ownership and legal form G48 Markets served (including geographic breakdown, sectors served, and types of castomers and beneficiaries) G49 Scale of the organisation G410 Total number of employees by employment contract and gender G411 Percentage of total employees by employment contract and gender G412 Description of the organisation's supply chain G413 Segrificant changes sturing the reporting period regarding the organisation's size, structure, ownership, or its supply chain G413 Segrificant changes sturing the reporting period regarding the organisation's supply chain G414 Report whether and how the precautionary approach or principle is addressed by the organisation of whether and how the precautionary approach or principle is addressed by the organisation subscribes or which it endorses G415 Externally developed economic, environmental and social charters, principles, or other initiatives to which the organisation subscribes or which it endorses G416 Memberships of associations (such as industry associations) and national or initiatives to which the organisation subscribes or which it endorses G416 Memberships of associations (such as industry associations) and national or initiatives to which the organisation subscribes or which it endorses G417 Memberships of associations (such as industry associations) and national or rinitiatives to which the organisations unbscribes or which it endorses G418 Memberships of associations (such as industry associations) and national or rinitiatives to which the organisations unbscribes or which it endorses G419 Memberships of associations (such as industry associations) and national or rini | GENER | AL STANDARD DISCLOSURES | |

To the Board of Erste Group Bank AG

Independent Assurance Report

Independent assurance over the 2015 sustainability disclosures and data of Erste Group Bank AG

Attention: This letter has been translated from German to English for referencing purposes only. Please refer to the officially legally binding version as written and signed in German. Only the German version is the legally binding version.

Engagement

We were requested to perform a limited assurance engagement over the 2015 sustainability disclosures and data (hereafter "**Reporting**") in accordance with the GRI G4 CORE Option of Erste Group Bank AG.

The assurance engagement covers the Reporting as follows:

- "Annual Report 2015" in pdf-format concerning information and references linked from the GRI-Index to sustainability disclosures and data.
- Additional information on the company's website regarding materiality analysis, see "GRI materiality analysis 2015" available at

http://www.erstegroup.com/en/investors/reports

Our assurance engagement solely covers references directly specified in the GRI-Index. It does not cover any further web references, nor references made directly in the Reporting.

Our procedures have been designed to obtain a limited level of assurance on which to base our conclusions. The extent of evidence gathering procedures performed is less than for that of a reasonable assurance engagement (such as a financial audit) and therefore a lower level of assurance is provided.

Limitations to our Review

- The boundaries for the Reporting of Erste Group Bank AG and our limited assurance were defined as the scope of consolidated entities with the following exceptions. Not included were savings banks, which are consolidated via the so called Haftungsverbund (joint liability).
- Furthermore environmental data was not collected for subsidiaries outside Austria, Czech Republic, Slovakia, Hungary, Croatia, Serbia and Romania (e.g. the offices in London and New York).
- The scope of our review procedures at operational level was limited to the following site visits: Vienna and Budapest.
- We did not test data derived from external surveys, we only verified that relevant disclosures and data are correctly quoted in the Reporting.
- The objective of our engagement was neither a financial audit nor a financial audit review. We did not perform any further assurance procedures on data, which were subject of the annual financial audit, the corporate governance report or the risk reporting. We merely checked that data was presented in accordance with the GRI Guidelines.
- Limited assurance over prospective information was not subject to our engagement.
- Neither the detection and investigation of criminal offenses, such as embezzlement or other fraudulent actions, nor the assessment of effectiveness and efficiency of management were subject to our engagement.
- We did not audit energy and CO2-emission data for 2015. Due to the implementation of a new software tool to collect and analyse sustainability data of Erste Group the preparation of data could not be completed on time.

Criteria

The information included in the Reporting was based on the criteria applicable in the year 2015 ("The Criteria"), consisting of:

GRI Sustainability Reporting Guidelines G4¹

We believe that these criteria are suitable for our assurance engagement.

Management responsibilities

Erste Group AG's management is responsible for the Reporting and that the information therein is in accordance with the criteria mentioned above. This responsibility includes designing, implementing and maintaining internal controls. These are essential for the elimination of material misstatements in the Reporting.

Our responsibilities

It is our responsibility to express a conclusion on the information included in the Reporting on the basis of the limited assurance engagement.

Our assurance engagement has been planned and performed in accordance with the International Federation of Accountants' ISAE3000² and the Code of Ethics for Professional Accountants, issued by the International Federation of Accountants (IFAC), which includes requirements in relation to our independence.

The objective of our engagement is not to account for the interests of any third parties. Our work solely serves the client and his purpose. Our engagement is thus not destined to be used as a basis of decision-making for third parties.

The "General Conditions of Contract for the Public Accounting Professions"³, are binding for this engagement. According to that, our liability is limited and an accountant is only liable for violating intentionally or by gross negligence the contractual duties and obligations entered into. In cases of gross negligence the maximum liability towards Erste Group AG and any third party together is EUR 726,730 in the aggregate.

What we did to form our conclusion

We have performed all the procedures deemed necessary to obtain the evidence that is sufficient and appropriate to provide a basis for our conclusions. The assurance engagement was conducted at Erste Group AG's head quarter in Vienna and in Budapest. Our main procedures were:

- Obtained an overview over the industry as well as the characteristics and governance of the organisation;
- Interviewed a selection of Group and functional senior managers and executives to understand key expectations and identify systems, processes and internal control processes to support them:

http://www.kwt.or.at/de/PortalData/2/Resources/downloads/downloadcenter/AAB_2011_englische_Fassung.pdf

¹https://www.globalreporting.org/reporting/g4/Pages/default.aspx ²International Federation of Accountants¹ International Standard for Assurance Engagements Other than Audits or reviews of Historical Financial Information (ISAE3000), effective for assurance statements dated after January 1, 2005. ³version of February 21th 2011 (AAB 2011) issued by the Chamber of Public Accountants and Tax Advisors, section 8

- Reviewed Group level, Board and Executive documents to assess awareness and priority and to understand how progress is tracked:
- Examined risk management and governance processes related to sustainability and critical evaluation of the representation in the Reporting:
- Performed analytical procedures at Group level;
- Performed site visits in Budapest to review progress and obtain evidence of performance. In addition we reviewed data samples at site level for completeness, reliability, accuracy and timeliness;
- Reviewed data and processes on a sample basis to test whether they had been collected, consolidated and reported appropriately at Group level. This included reviewing data samples to test whether the data had been reported in an accurate, reliable and complete manner:
- Reviewed the coverage of material issues against the key issues raised in the stakeholder dialogues, areas of performance covered in external media reports and the environmental and social reports of Erste Group AG's peers;
- Challenged a sample of statements and claims in the Reporting against our work steps and the GRI G4 principles and
- Reviewed whether the GRI G4 Guidelines were consistently applied for the CORE Option.

Our Conclusion

Based on the scope of our review nothing has come to our attention that causes us to believe that the disclosures and data in the Reporting were not prepared, in accordance with the criteria identified above.

Recommendation

Without restriction the above stated conclusion, we express the following recommendations to improve your sustainability management and reporting process:

- Expansion of report boundaries to all consolidated entities to ensure consistent reporting and
- Inclusion of all entities in a consistent and integrated management and reporting system.
- Implementation of additional monitoring processes regarding energy and CO2-emission data.

Vienna, March 18th 2016
