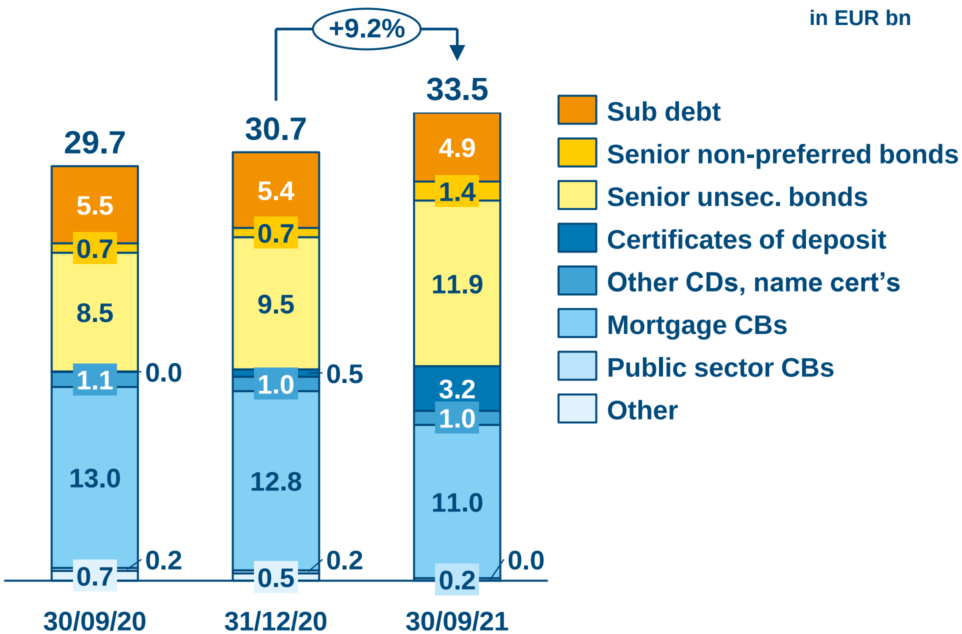
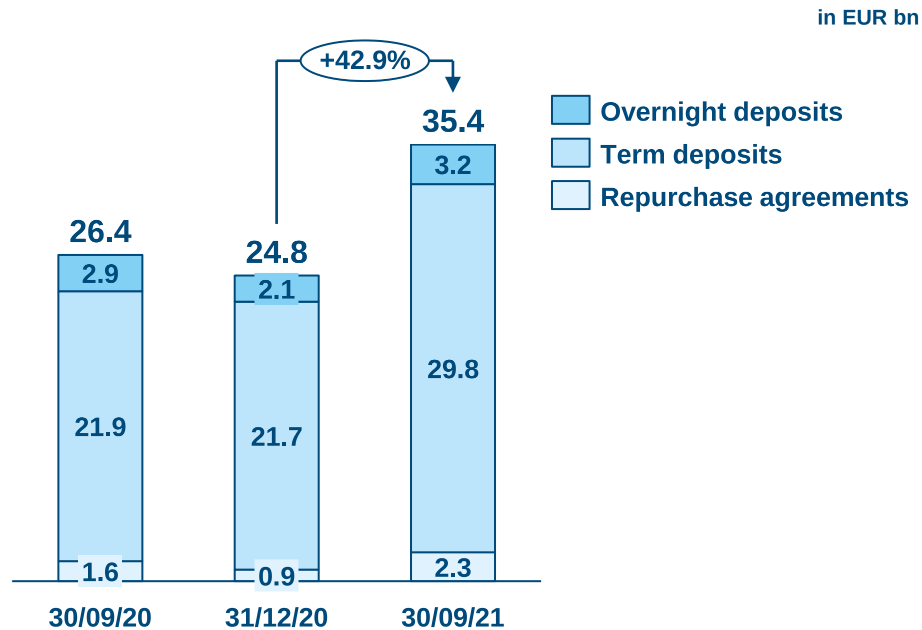
Wholesale funding and capital: debt vs interbank funding –
Stable wholesale funding reliance, as customer deposits grow strongly

Debt securities issued



- Increased MREL-related issuance leads to rise in stock of senior unsecured bonds
- Temporary increase in CDs reflect increased activity in Group Markets business
- High liquidity (attributable to substantial deposit inflow and TLTRO III) results in decline in covered bonds issuances

Interbank deposits

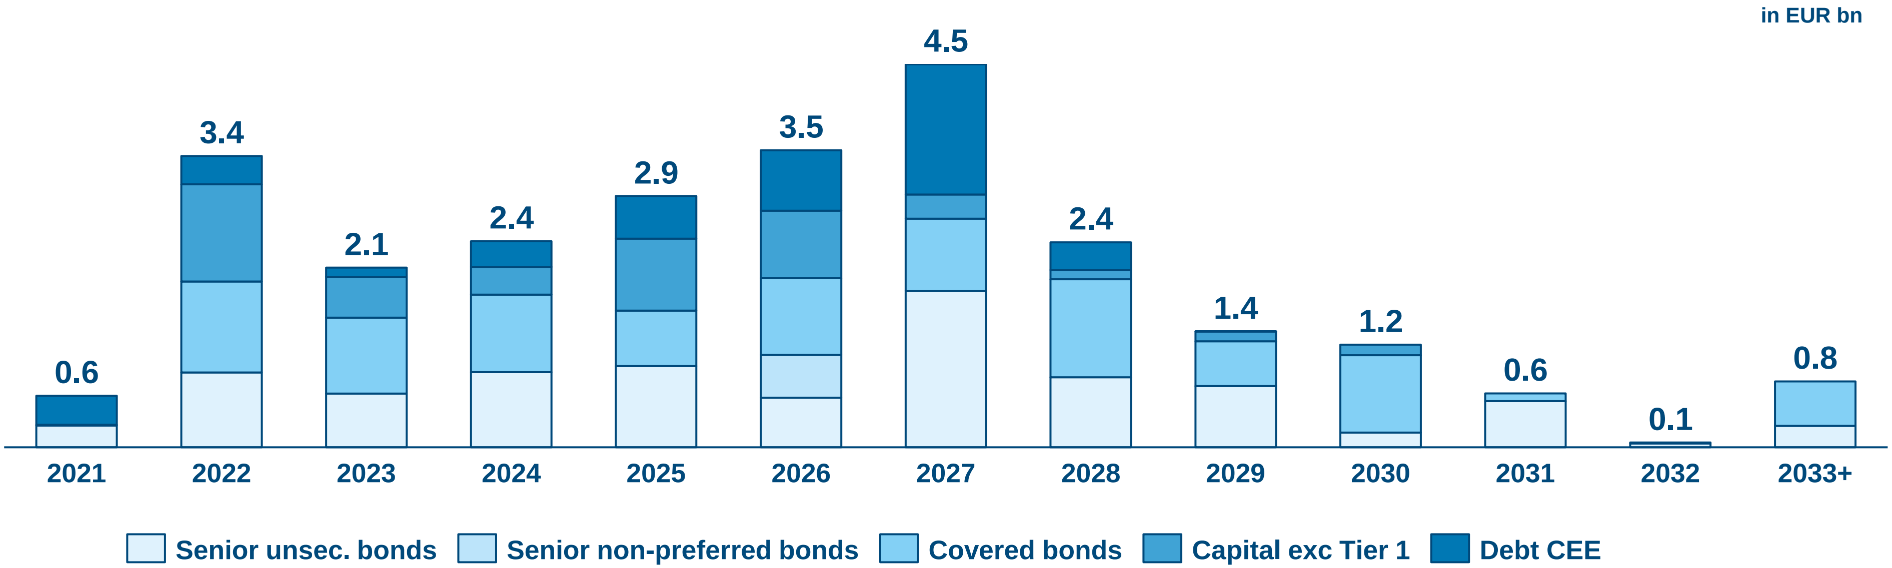


- Significant increase in interbank deposits predominantly driven by increased TLTRO III balance, balance sheet management

Wholesale funding and capital: LT funding –

Stable LT funding needs in 2021 with focus on senior preferred funding

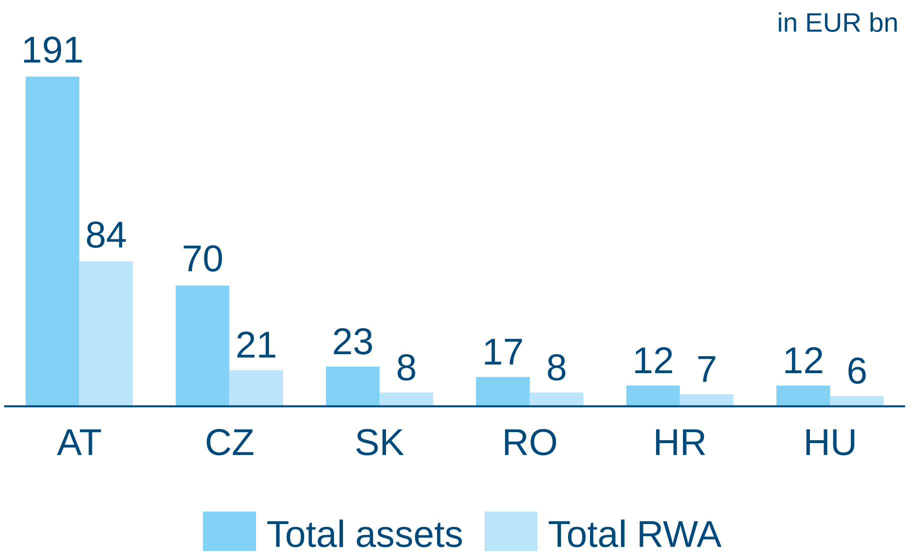
Maturity profile of debt



- Erste Group continued its senior preferred themed funding strategy in September by issuing an 8y EUR 500m transaction at MS+45bps after its first sustainability bond in May (EUR 500m, 7y) and a 10y senior preferred note in January
- TLTRO III outstanding as of 30 Sept 2021: EUR 21bn

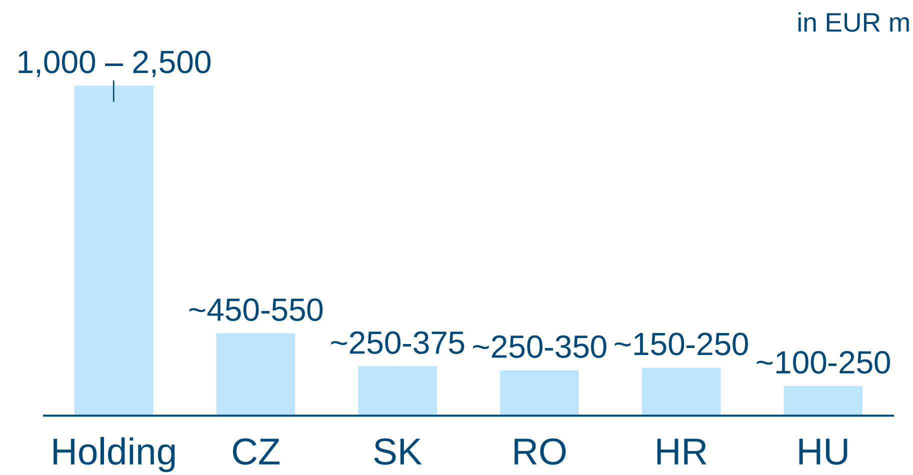
Wholesale funding and capital: MREL update –
MREL-related issuance progresses as planned

MREL resolution groups (September 2021)



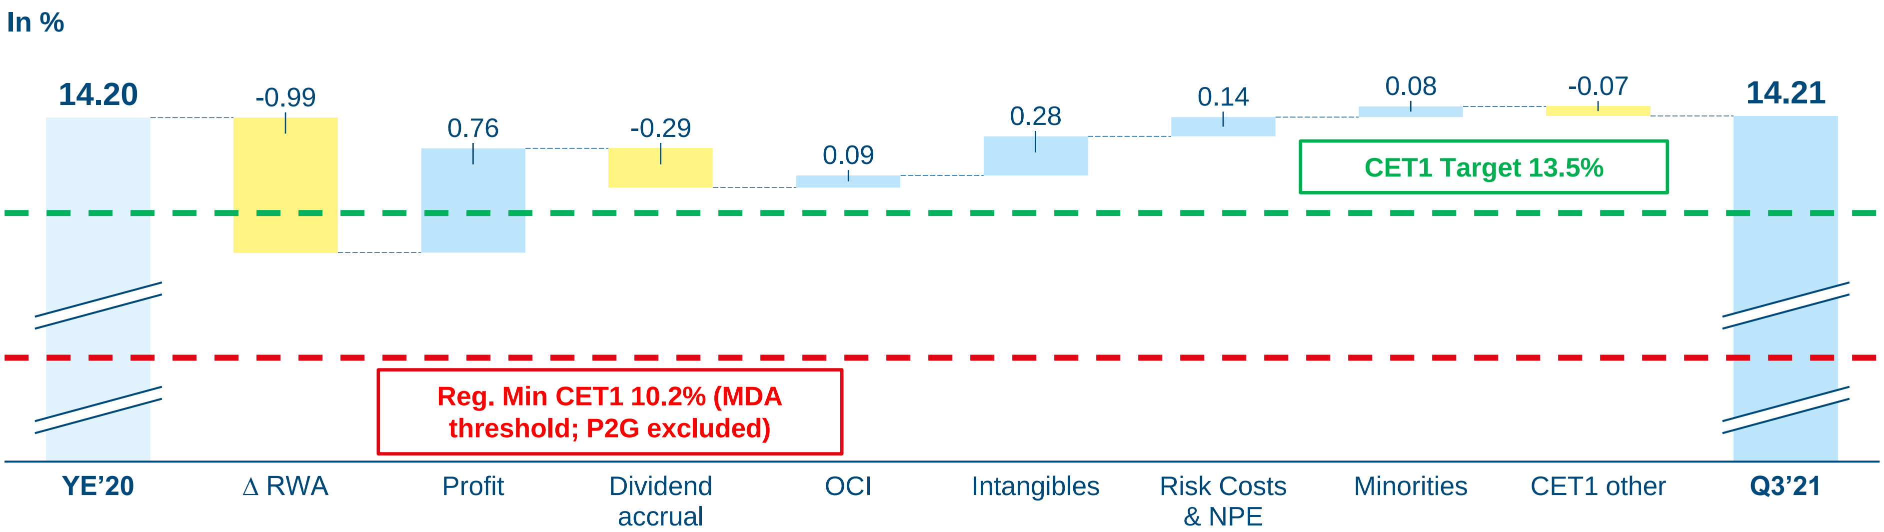
- Under MREL there are 6 MPE resolution groups: 3 (AT, SK, HR) covered by the Single Resolution Board and 3 (CZ, RO, HU) covered by the respective National Resolution Authority
- The Austrian resolution group (parent company, EBOe and savings banks) is not considered a legal entity or reporting unit, hence there is neither a statutory reporting nor a capital requirement for the Austrian resolution group

Preliminary 3year MREL issuance plan (avg. p.a.)



- CEE issuances will mainly be placed in domestic market and Euro markets
- First NPS issuances by Holding (in EUR) and BCR (in RON) in 2019 and Slovenská sporiteľňa in 2020
- MREL-related issuances in 2021:
  - Holding: ~EUR 2bn PS bonds (3 benchmarks)
  - CZ: EUR 500m NPS bond (1 inaugural benchmark)
  - SK: EUR 200m PS bonds (in 2 tranches)
  - RO: RON 1bn NPS and RON 500m PS bonds
  - HR: EUR 445m PS (international EUR 400m and domestic EUR 45m bonds)

Wholesale funding and capital: CET1 waterfall –
Strong fully loaded CET1 ratio of 14.2%, pro-forma at 14.5%



Solid CET1 ratio

- Half year profit of EUR 914m (CRR scope) included, EUR 0.8 per share accrued in H1 21
- Positive **OCI** development driven mainly by improvement in FX translation (EUR +160m), partially offset by lower FV changes from debt instruments (EUR -82m)
- Lower deduction for **other intangible assets,** mainly due to prudent amortisation of software assets (EUR +313m)[1]
- Decrease in **risk provisions** (EUR +71m) further supported by lower deduction for the **NPE backstop** (EUR +98m)
- Increase in **minorities** (EUR +94m) driven by consideration of remaining YE'20 profit from minorities

Erste Group returns to progressive dividend policy

- Payout 2021: EUR 1.0 DPS, subject to EGM approval on 25 November 2021, capital neutral considering full accrual in 2020
- Payout 2022: Erste Group targets EUR 1.6 DPS for business year 2021

ERSTE Group

1 Considering additional RWAs of EUR +313m for the carrying amount of the prudent amortisation, the net effect results to +21bps
