

Fitch Places German and Austrian Banks Under Criteria Observation

Fitch Ratings-Frankfurt am Main-04 March 2020:

Fitch Ratings has placed Austrian and German banks' Long-Term (LT) Issuer Default Ratings (IDRs), Derivative Counterparty Ratings (DCR), debt ratings and Deposit Ratings under criteria observation (UCO).

The rating actions follow the publication on 28 February 2020 of Fitch's updated bank and non-bank financial institution rating criteria that include changes to the way the agency notches senior and junior ratings from their IDR or Viability Rating (VR) anchors.

The updated criteria better reflect continuing developments in bank resolution, notably developments in bank resolution plans, the build-up of 'bail-in' debt buffers that protect more senior creditors and their implication for default risk and recovery prospects for senior and junior liability classes. Fitch has also reduced the base case notching for non-performance on additional tier 1 (AT1) instruments, narrowing the relative gap between Tier 2 and AT1 instruments where Fitch has reappraised its baseline treatment of non-performance risk.

Ratings designated as being UCO will be reviewed and resolved as soon as practical and in any case within six months.

Key Rating Drivers

Fitch has placed UCO the IDRs, DCRs, senior debt, deposit, subordinated debt and hybrid debt ratings of the various issuers as outlined in the rating sensitivities section below. The rating actions reflect the possibility that these ratings will be upgraded or downgraded as a result of the publication of our new Bank Rating Criteria on 28 February 2020, as outlined in more detail in the Rating Sensitivities section of this rating action commentary.

HSBC Trinkaus & Burkhardt's (HSBC Germany) LT IDR is underpinned by our view that support for the bank would come from its ultimate parent HSBC Holdings plc (HSBC) through its intermediate parent HSBC Bank plc (HSBC Bank), for which it is a key subsidiary. Aareal Bank AG's LT IDR is notched up once from its VR due to its sizeable qualifying junior debt buffer.

The senior debt ratings, DCRs and Deposit Ratings of the affected banks are equalised with the banks' IDRs, with the exception of Aareal's LT deposit and senior preferred (SP) debt ratings, which are notched up from the bank's LT IDR to reflect the bank's large senior non-preferred debt (SNP) buffer.

The Tier 2 subordinated debt is notched down once from the banks' VRs to reflect below-average recovery expectations. AT1 debt with fully flexible coupons is notched down five times from the banks' VRs (twice for loss severity and three times for incremental non-performance risk).

RATING SENSITIVITIES

We have placed UCO HSBC Germany's support-driven LT IDR and LT Deposit Rating. Both ratings could be upgraded by one notch to 'AA-' if HSBC Bank's LT IDR is upgraded to 'AA-' and if we conclude that resolution plans are likely to result in HSBC Germany's external senior creditors being protected and avoiding default if the group fails. This assumes that the group's resolution plans identify HSBC Germany as a key foreign subsidiary benefitting from intra-group resources.

We have placed UCO Aareal's LT IDR, which could be downgraded under the new criteria if we conclude that the bank is unlikely to hold Tier 2 and AT1 debt buffers sustainably in excess of 10% of its risk-weighted assets (RWAs).

OTHER DCRS

Aareal's DCR has been placed UCO because the rating could be downgraded if its equally ranking SP debt is downgraded.

We have placed UCO the DCRs of eight other issuers to reflect the protection that could accrue to the (preferred) DCR creditors from the build-up of bank resolution debt and equity buffers. The eight issuers are Bayerische Landesbank (BayernLB), Deutsche Bank Securities Inc., Erste Group Bank AG (Erste), Landesbank Baden-Wuerttemberg (LBBW), Landesbank Saar, Norddeutsche Landesbank Girozentrale (NORD/LB), Santander Consumer Bank AG (SCB AG), and UniCredit Bank AG.

LT SP DEBT

Aareal's LT SP debt has been placed UCO because it would be downgraded if the bank's LT IDR is downgraded.

The SP debt of BayernLB, Berlin Hyp, Erste, LBBW, NORD/LB, NORD/LB Luxembourg S.A. Covered Bond Bank, SCB AG, and UniCredit Bank AG has been placed UCO to reflect a possible upgrade

under the new criteria because of the protection that could accrue to preferred debt from more junior resolution debt and equity buffers.

LT SNP DEBT

We have placed UCO Erste's SNP debt to reflect a possible downgrade under the new criteria due to the risk of below-average recoveries arising from the use of more senior debt to meet resolution buffer requirements and buffers of AT1, Tier 2 and SNP debt being unlikely to exceed 10% RWA.

SENIOR UNSECURED DEBT

The senior unsecured debt class of the banks listed below contains all senior unsecured instruments issued before 21 July 2018. Therefore, this debt class may contain non-structured senior unsecured debt and certain instruments with simple structures that in resolution rank pari passu with SNP instruments issued after 21 July 2018, as well as structured notes that rank pari passu with SP instruments issued after the same date.

Berlin Hyp's, BayernLB's, LBBW's and NORD/LB's senior unsecured debt class has been placed UCO to reflect the possibility that any structured notes included in this debt class may be upgraded under the new criteria.

Aareal's senior unsecured debt class has been placed UCO to mirror the IDR's UCO, which indicates a potential one-notch downgrade. The ratings of structured notes included in the senior unsecured debt class may be affirmed under the new criteria if we estimate that they qualify as SP debt under the German resolution regime.

LT DEPOSITS

We have placed UCO Aareal's LT Deposit Rating because it would be downgraded if the bank's LT IDR is downgraded.

We have placed UCO the LT Deposit Ratings of eight other banks to reflect a potential upgrade under the new criteria because of the protection that could accrue to them from more junior bank resolution debt and equity buffers. The affected banks are Berlin Hyp, BayernLB, HSBC Germany, Landesbank Saar, LBBW, NORD/LB, SCB AG, and UniCredit Bank AG.

SHORT-TERM (ST) DEBT AND DEPOSITS

We have placed UCO Aareal's ST debt and Deposit Ratings to reflect a potential downgrade if the equivalent LT senior debt and Deposit Ratings are downgraded. This is because the highest ST

rating corresponding to a LT rating of 'A-' is 'F2'.

We have placed UCO five other banks' ST debt and deposit ratings, because they could be upgraded if their respective LT senior debt and Deposit Ratings are upgraded, making a higher equivalent ST rating possible. The affected banks are BayernLB, Landesbank Saar, LBBW, NORD/LB, and SCB AG.

TIER 2 DEBT

We have placed UCO 12 banks' Tier 2 subordinated debt because it could be downgraded to reflect the switch to a baseline notching of two notches for loss severity from the banks' respective VRs under the new criteria (from one notch under previous criteria). The 12 banks are Aareal, BayernLB, BAWAG Group AG, Commerzbank, Deutsche Bank AG, Deutsche Bank London Branch, Dresdner Funding Trust IV (Commerzbank), Erste, Landesbank Hessen-Thüringen Girozentrale, LBBW, NORD/LB, and UniCredit Bank AG.

AT1 DEBT

We have placed UCO Aareal's and Deutsche Bank AG's AT1 debt ratings. These bonds have fully flexible coupons and are notched five times from the banks' respective VRs. They could be upgraded to reflect a notching of four times under the new criteria to reflect a reduction in incremental non-performance risk notching.

Public Ratings with Credit Linkage to other ratings

Berlin Hyp's, Bayerische Landesbank's, Landesbank Baden-Württemberg's, Landesbank Saar's and NordLB's ratings are driven by potential support from the banks' ultimate parent, Sparkassen-Finanzgruppe (SFG).

Nord/LB Luxembourg S.A. Covered Bond Bank's ratings are linked to NordLB.

Landesbank Hessen-Thüringen Girozentrale (Helaba) is part of Sparkassen-Finanzgruppe Hessen-Thüringen (SFG-HT). SFG-HT is not a legal entity but a network of savings banks in Hessen and Thüringen whose cohesion is supported by a mutual support scheme and which forms a common economic unit together with Helaba. Fitch assigns "group" ratings to SFG-HT and its member banks.

Deutsche Bank Securities, Inc.'s and Deutsche Bank London Branch's ratings are linked to Deutsche Bank AG.

Dresdner Funding Trust I and IV are funding vehicles that issue sub-debt and hybrid securities, for which Commerzbank's VR is used as an anchor rating.

HSBC Germany's ratings are linked to those of HSBC and HSBC Bank.

Santander Consumer Bank AG's ratings are linked to Banco Santander, S.A. and Santander Consumer Finance, S.A.

Unicredit Bank AG's ratings are linked to Unicredit SPA.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a

report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an

Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

ENDORSEMENT POLICY - Fitch's approach to ratings endorsement so that ratings produced outside the EU may be used by regulated entities within the EU for regulatory purposes, pursuant to the terms of the EU Regulation with respect to credit rating agencies, can be found on the [EU Regulatory Disclosures](#) page. The endorsement status of all International ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for all structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
