

This summer, after more than two and a half years of restoration work, and once the scaffolding and the advertising banners have been removed, there will once again be a clear view of the southern tower of St. Stephan's cathedral.

At the same time, the conclusion of the successful advertising campaign by Wiener Städtische Versicherung AG Vienna Insurance Group and the Erste Bank der oesterreichischen Sparkassen AG marks the completion of a major stage of the restoration work on the southern tower of Vienna's St. Stephan's cathedral.
