

Sparefroh Junior ProfitCard for "young" savers from 0 to 13 years-old

The Sparefroh Junior ProfitCard is the modern alternative to the savings book, with a child-friendly layout and many benefits. Legal representatives or grandparents and aunts, etc. can use this savings product to provide for the future or to help save up for a particular wish. Gifts of money can also be paid in directly to the savings account by standing order. The child earns great interest from even just one euro, while the accumulated sum is available at any time. As an introductory gift, each child receives three free editions of the "Hallo, Sparefroh" magazine, a Sparefroh stencil and a funny Sparefroh sticker.

Together with their legal representative, children can use the Sparefroh card to learn about handling money and cash-free forms of payment from an early age. The savings deposits can be accessed from all Self-Service terminals of Erste Bank and the Sparkassen, while the E-Banking service gives 24-hour access to the account.

The Sparefroh card not only gives the name of the legal representative, but also the name of the child under "**saving for:**".

The Sparefroh Junior ProfitCard with no account management fee is suitable for all savings accounts of Erste Bank with bankcards.
