

Investing in energy: Best Garant Energie III

[Back](#)

12.01.2010

- 100 per cent capital guarantee and a minimum of 2.55 per cent interest p.a.
- Opportunity to earn 5.55 per cent p.a. with a five-year term

“The energy sector will continue to offer interesting investment opportunities in the years to come”, said Gerald Walek, analyst at Erste Group responsible for the energy sector. “On one hand, established companies in the utilities sector possess defensive business models offering sound cash-flow performance. On the other hand, investors can profit from the sector’s massive growth potential by purchasing shares in up-and-coming companies in the field of renewable energies”. The **Best Garant Energie III (AT000B003975)** offers the opportunity to invest in this promising sector and at the same time maintain a low level of risk. This means that investors can take advantage of the opportunities offered by equities without having to forego the security of a bond. The Best Garant Energie III comprises a basket of equities with 20 stocks from renowned international energy companies – from solar energy to electronics and utilities. The **minimum interest rate is 2.55 per cent p.a.** and the invested capital is **100 per cent guaranteed**. The coupon can be **as high as 5.55 per cent p.a.** as long as none of the equities reach or fall below the barrier (69.9 per cent of the equities’ closing value) on the observation dates. The equities are observed once a month. At the end of the five-year term, the bond will be redeemed at 100 per cent.
