

Erste Bank Offers Novel Insurance Policy for Mobile Devices

With immediate effect, Erste Bank is offering a novel type of property insurance policy, "s Mobile Protect", specifically for mobile devices like smart phones, tablets, notebooks, mp3 players, GPS navigation devices or portable gaming consoles. In the event of damage, theft or robbery, all devices in the household are insured. The insurance costs EUR 9.90 per month and offers not only protection for the insurance holder, but also their partner and children (below the age of 18) living in the same household. The insurance cover is EUR 1,500 per year, resp. EUR 600 per year in the case of mobile phones. Should a claim arise, either the repair of the device, or its present value is paid. All devices that have been bought prior to taking out the insurance policy are also protected (going back up to 3 years). The insurance policy can be immediately taken out online through netbanking:
