RULES FOR COMPLETING A PAYMENT ORDER

1. RULES FOR COMPLETING A PAYMENT ORDER

1.1 Domestic Payments in Czech Crowns

Payment orders must include the following **mandatory data**:

- a) **Payer account number and payee account number, including bank code**;
- b) **Amount** (for postal orders the amount specified on the reverse side is relevant; if left blank, the amount specified on the front side will be used);
- c) **Signature** – must correspond with the signature specimen provided on the signature specimen form for the account.

Where a one-time payment order is entered in the form of a multiple payment order, the aforementioned data have to be completed for each form or each page of the multiple payment order.

Payment orders may also contain the following **optional data**:

- a) Due date (i.e. the date on which the funds shall be debited from the payer's account);
- b) Variable symbol;
- c) Specific symbol;
- d) Constant symbol;
- e) Text message for the payee;
- f) Issue date of the payment order.

As regards postal orders, payments will be executed solely on the basis of the payee's information on the front side and the payer's information on the reverse side.

1.2 Payment Orders for Foreign-Currency Payments in the Czech Republic and for All Outgoing Foreign Payments

Payment orders must include the following **mandatory data**:

- a) **Payer's bank details** – account number, exact name and address of the account owner;
- b) **Payee's bank details**

If the payment transaction is to be made to a European Economic Area country or to another country which uses the IBAN format for account numbers (for a list of countries using IBAN, please refer to the Bank's website), the payee's bank details must be specified as follows:

1. IBAN – the account number in international format and the exact account name and address of the payee (if an incorrect IBAN is used, the payment order may be declined)
2. BIC – international bank code and exact name and address of the payee's bank

If IBAN and BIC are not provided or if they are provided in the wrong fields, the payment transaction may not be executed or the foreign bank may charge an additional fee for the transaction.

In the case of execution of payment transaction to a country that does not use the IBAN format, the payee's bank details shall be specified as follows:

1. Account number
2. Exact name of the account and address of the payee
3. BIC/clearing (sort) code of the payee's bank, the exact name and registered office of the branch of the payee's bank which maintains the account

If only the BIC is specified in the payment order, i.e. if the bank's name is not specified, the order will be processed on the basis of the BIC. If both details are specified but the BIC does not correspond with the name of the bank, the payment order will be processed based on the BIC. If the name and registered office of the bank is not sufficient for properly executing the payment order, the order will not be executed. The same principles also apply when using the clearing (sort) code instead of the BIC.

- c) **Currency of transfer**: AUD, BGN, CAD, CHF, CZK, DKK, EUR, GBP, HKD, HRK, HUF, JPY, LTL, NOK, NZD, PLN, RON, RUB, SEK, USD, TRY, TND and ZAR. Transfers in CNY, INR and THB are available only for corporate clients. If the currency of transfer is the Czech crown, it is necessary to check with the Bank in advance whether the foreign (receiving) bank accepts payments in Czech crowns.
- d) **Due date** – the date on which the funds are to be debited from the Client account.

e) **Fee payment method** – the method applied for transfer fees:

SHA	BEN	OUR
The payer covers its bank's fees and the payee covers fees of other banks. For this reason, the payee may receive the payment minus any fees charged by other banks.	All fees are covered by the payee. For this reason the payee will receive the payment minus any fees charged by all banks involved.	All fees are covered by the payer. For this reason the payee will receive the payment in its full amount.

SHA can be chosen only for payments to European Economic Area countries in the currencies of those countries. OUR is possible only if the transfer involves a conversion between the payment currency and the Client's account currency, i.e. when the transfer currency differs from the account currency. For these transfers, BEN cannot be chosen at all.

If the order is submitted with an incorrectly specified fee payment method, the bank will change BEN and OUR to SHA (excluding payments with conversion of the currencies). If no fee payment method is selected, the payment will be processed using SHA. Payments up to CZK 2,000 or its foreign currency equivalent will be executed only if the payment order contains the fee payment method SHA or OUR; orders using BEN will not be executed.

For payments to the USA, the payee may not receive the payment in its full amount, even in the case of choosing OUR.

- f) **Contractual exchange rate** – if a contractual exchange rate for executing the payment is agreed between the Client and the Bank in advance, such rate has to be specified in the payment order. If the relevant field is not filled in, the Bank will execute the exchange rate conversion based on the current exchange rate list effective at the time of execution.
- g) **Signature** – must correspond with the signature specimen provided in the signature specimen form for the account.

Some payees' banks or countries require certain details to be filled in the payment order in a special manner, e.g. for payments in RUB (Russian roubles) sent to the Russian Federation. In cases where failure to meet these special requirements would mean that the payment transaction will not be executed for the payee, orders which do not meet special, known requirements of foreign banks may be declined. More information on these details is available on the Bank's website.

Payment orders may also contain the following **optional data**:

- Purpose of the payment transaction, i.e. additional information relating to the payment transaction which is relevant to the payee;
- Priority of execution of the payment transaction;
- Instructions for sending confirmation that payment transaction was executed;
- Instruction for sending an information SMS on potential non-execution of the payment transaction;
- Instruction for cash disbursement of the amount.

If the transferred amount is to be disbursed to the payee **in cash**, the payment order must contain the following data:

- Name and exact address of the bank where the payee will personally collect the money;
- Name and number of the identification card to be produced by the payee upon disbursement, and contact details of the payee;
- The "Payee's account name" field will specify the name of the person who will collect the payment; the name has to be stated exactly as provided in the identification card;
- In this case, the "payee's account number" field is not to be filled in.

1.3 Payment Order Details for Cross-border SEPA Transfers in EUR

Payment orders for cross-border transfers in EUR/SEPA transfers must contain the following **mandatory data**:

- Payer's bank details and account name**;
- Payee's bank details, always in IBAN format** (if an incorrect IBAN is specified, the Client's payment order may be refused), together with the receiving bank's BIC;
- Amount in EUR**;
- Due date**;
- Contractual exchange rate** (if agreed in advance);
- Signature** – must correspond with the signature specimen provided in the signature specimen form for the account.

Payment orders may also contain the following **optional data**:

- Purpose of the payment transaction, i.e. additional information relating to the payment transaction which is relevant for the payee;
- Priority of execution of the payment transaction;
- Instructions for sending a confirmation that the payment transaction was executed;
- Instructions for sending an informational SMS on potential payment transaction non-execution;
- Additional identification data on the payment transaction, payer and payee, as follows:
 - Reference of payment transaction – reference/code/symbol of the payment that serves for identifying the payment transaction for the payer or for the payee
 - Payer's code and code type – additional information identifying the payer
 - Payee's code and code type – additional information identifying the payee

SECURITY LIMITS FOR PAYMENTS AND WITHDRAWALS

1.4 Risk Territories

A special declaration needs to be signed before a payment transaction to certain risk territories or banks can be executed. In the case of certain risk territories, the Bank is entitled to perform an in-depth check; the Bank does not execute foreign transfers to certain risk territories. Additional information on payments sent to risk territories and banks and a current list of such territories/banks are available on the Bank's website.

2. SECURITY LIMITS FOR PAYMENTS AND WITHDRAWALS

2.1 Security Limits of Payment Orders

Method of submission	Limit
Via ATMs or Payment ATMs (applies only to business clients)	Daily limit – CZK 500,000 This limit includes also orders with future due dates.
Via collection boxes, post or courier	Limit for one payment order – CZK 100,000 (or equivalent amount in foreign currency). Total amount is taken into account for multiple orders.
Over the counter at the Bank's branches	No limit applies.

2.2 Security Limits Applicable to SERVIS 24 Services

Via SERVIS 24, payment orders can be entered up to the limits stated in the table below from 11:00 p.m. to 11:00 p.m. of the following day. An authorisation SMS or electronic certificate has to be activated in order to execute payment transaction via SERVIS 24 Internetbanking. The SERVIS 24 Internetbanking limit can be exceeded only using an electronic certificate, if it is available to the Client.

Limit for:	Default daily limit set for SERVIS 24:
SERVIS 24 Telebanking	CZK 50,000 (this limit can be increased up to CZK 100,000)
SERVIS 24 Internetbanking	CZK 200,000
SERVIS 24 GSM banking	No limit
SERVIS 24 Mobile bank	CZK 30,000 (monthly limit of CZK 200,000 - cannot be changed)
Mobile payments	CZK 10,000 (cannot be changed)

These limits do not apply to payments made between the Client's accounts maintained by the Bank and the accounts of Investiční společnost České spořitelny, if they are assigned under one contract on SERVIS 24 services.

2.3 Card Payment and Withdrawal Limits

Limits for cash withdrawals, payments at merchants and internet payments can be agreed individually. If no limits are set, the recommended limits for payment cards will be set up automatically (see the Bank's website). Current limits are available:

- When contracting the payment card;
- In the letter which the Client receives together with the card;
- From the Bank's ATMs;
- Via telephone (toll-free) 800 207 207 (for calls from abroad at +420 956 777 956);
- Via internet banking SERVIS 24 and BUSINESS 24;
- At any of the Bank's point of sale.

Limits for payments at merchants also include payments made via the internet, orders of goods and services via telephone, e-mail or post (so-called MO/TO payments), and regular payments. Limits for cash withdrawals also include cash back (a cash withdrawal made directly at merchant concurrently with a payment by card), cash advance (withdrawal made via the payment card at bank tellers and in exchange offices), and other payments are determined in card association' rules, which are available on the Bank's website. Single orders submitted via ATMs or ČS Payment ATMs are not included in these limits; the card only serves for the purposes of identifying the cardholder in this case.

In cases where several cards are issued for a single account, the daily limits for the account are set up for all the cards together; these limits will apply even if only one payment card is issued for the account. These limits cannot be changed. More details are available on the Bank's website.

PAYMENT EXECUTION TIME

3. PAYMENT EXECUTION TIME

3.1 Definition of Operating Hours and Clearing Time Limits

Once submitted, a payment order will be executed within the time limits stipulated in this information document. The time limits commence at the moment the payment order is received. If the payment order is submitted outside the Bank's operating hours, the Bank will receive it for processing at the beginning of its operating hours on the next working day.

3.2 Definition of a Business Day

Transfer type	Business day
Payment transactions in CZK transferred within the Czech Republic	Any day when banks in the Czech Republic are open and there is ongoing settlement of interbank deals by the Czech clearing house.

⁴⁾ Option to submit payment order via telephone is available only for business clients.

3.9 Standing Payment Orders for Foreign-currency Payments and Outgoing Foreign Payments

The Bank will execute an order for setting up, changing, or cancelling a standing order for payments in a foreign currency, or for outgoing foreign payments in CZK or in foreign currencies within the Czech Republic if the order is submitted at the Bank no later than one business day prior to its due date by 3:00 p.m.

3.10 PRIEURO Payments

PRIEURO payment orders can be submitted via the electronic and telephone banking services (option to submit payment order via telephone is available only for business clients).

If the receiving bank does not execute PRIEURO payments or if the Client's order has an incorrect BIC of the receiving bank, yet the bank can be identified by other data specified in the order, the order will be executed in the “express” mode on the same day.

If the Client receives a PRIEURO payment, it will be credited to the Client's account within 1.5 hours of receipt. For a current list of PRIEURO banks, please visit the Bank's website.

3.11 Urgent and Express Payments in Foreign Currencies and Outgoing Foreign Payments

In the case of “**urgent**” orders submitted during the Bank's operating hours, the Bank guarantees the payment will be credited to the correspondent bank on the next business day for the following currencies: CAD, CZK, DKK, EUR, GBP, HRK, HUF, CHF, NOK, PLN, SEK, TRY and USD.

In the case of “**express**” orders submitted during the Bank's operating hours, the Bank guarantees the payment will be credited to the correspondent bank on the same business day for the following currencies: CAD, CZK, EUR, GBP, HUF, CHF, NOK, SEK and USD.

Payments in AUD, BGN, HKD, JPY, LTL, NZD, RON, RUB, TND, ZAR, CNY, INR and THB (applicable only to the corporate clients) will be credited to the correspondent bank within two business days of receipt. These payments should always be submitted with “**standard**” priority.

CURRENCY CONVERSION FOR PAYMENT TRANSACTIONS

4. CURRENCY CONVERSION FOR PAYMENT TRANSACTIONS

4.1 Currency Conversion Rules for Payment Transactions

Operations on a payment account are executed and settled in the currency in which the payment account is maintained. If the payment transaction is entered in a different currency, the Bank will first recalculate (convert) the amount to the account currency.

Currency recalculation (conversion) for outgoing payments is executed by the Bank as follows based on its exchange rate list effective at the time the order was accepted:

- For foreign-currency orders from a CZK account, the non-cash sell rate is used;
- For CZK orders from an account maintained in a foreign currency, the non-cash buy rate is used;
- For foreign-currency orders from an account maintained in another foreign currency, the Bank will convert the amount from the transfer currency to CZK using the non-cash sell rate and will then recalculate the amount in CZK to the account currency using the non-cash buy rate.

For orders submitted to the Bank via collection boxes, the exchange rate effective at 12:00 noon of the given day will be applied. The Bank will execute orders with future due dates, standing orders, and orders with repeated settlement after the due date (e.g. in the case of insufficient funds on the account) using the first exchange rate effective on the order execution date.

The Bank **recalculates (converts) currencies for incoming payments** using the current exchange rate effective at the time of processing. Where incoming foreign payments are concerned:

- Payment in a foreign currency made to a CZK account – the Bank will convert the amount to CZK using the non-cash buy rate;
- Payment in a foreign currency made to a foreign currency account – the Bank will convert the amount to the account currency using the non-cash sell rate;
- Payment in a foreign currency made to an account maintained in a different foreign currency – the Bank will recalculate the amount of transfer currency to CZK using the non-cash buy rate and subsequently will recalculate the amount to the account currency using the non-cash sell rate.

The Bank **settles cross-border payment card transactions** in Czech currency. If the Client makes a cross-border payment transaction in a different foreign currency than EUR, the card association will recalculate the payment to EUR using USD, or directly to EUR according to its rules. The conversion will be conducted using the association's exchange rate effective on the payment processing date. The Bank will debit the amount from the payment account in CZK recalculated from EUR using the non-cash sell rate effective on the date on which the payment is processed by the Bank.

If the Client has a multi-currency function agreed for the payment card, the Bank will settle the payment transaction by crediting the account whose currency is identical to the payment transaction currency. Only in cases where there is not a sufficient balance available on the given account at the time of the payment transaction execution or where the Client does not have an account in the payment transaction currency will the Bank settle such payment transaction by debiting the main account. If the main account is maintained in CZK, first the currency conversion to CZK will be carried out via the method described in the paragraph above and subsequently the payment will be converted to the main account currency using the Bank's non-cash buy rate effective on the date when the payment transaction is processed by the Bank.

4.2 Currency Conversion for Above-Limit Payments

If the payment order amount equals or exceeds CZK 250,000 or an equivalent of this amount in a foreign currency (recalculated by the current CNB non-cash mid rate) and the Bank performs currency conversion when clearing the order, the following rates will be applied:

	Order submitted by 4:30 p.m.	Order submitted after 4:30 p.m.
Outgoing foreign payments and foreign-currency payment transaction within the Czech Republic	Exchange rate based on the current situation on the interbank market	Exchange rate based on the Bank's exchange rate list effective on the order due date
Incoming foreign payments and payments in foreign currencies from other banks within the Czech Republic	Payment accepted by 3:30 p.m.	Payment accepted after 3:30 p.m.
	Exchange rate based on the current situation on the interbank market	Exchange rate based on the Bank's exchange rate list effective on the payment processing date
Foreign currency payments where both the payer's and payee's accounts are maintained in the Bank	Payment accepted by 3:30 p.m.	Payment accepted after 3:30 p.m.
	Exchange rate based on the current situation on the interbank market	Exchange rate based on the Bank's exchange rate list effective on the payment processing date

Information takes effect as of 1 February 2014.
