2023

Česká spořitelna – penzijní společnost, a.s.

Generated 15-12-2023

About this report

PRI reporting is the largest global reporting project on responsible investment. It was developed with investors, for investors.

PRI signatories are required to report publicly on their responsible investment activities each year. In turn, they receive a number of outputs, including a public and private Transparency Report.

The public Transparency Reports, which are produced using signatories' reported information, provide accountability and support signatories to have internal discussions about their practices and to discuss these with their clients, beneficiaries, and other stakeholders.

This public Transparency Report is an export of the signatory's responses to the PRI Reporting Framework during the 2023 reporting period. It includes the signatory's responses to core indicators, as well as responses to plus indicators that the signatory has agreed to make public.

In response to signatory feedback, the PRI has not summarised signatories' responses – the information in this document is presented exactly as it was reported.

For each of the indicators in this document, all options selected by the signatory are presented, including links and qualitative responses. In some indicators, all applicable options are included for additional context.

Responsible investment definitions

Within the PRI Reporting Framework Glossary, we provide definitions for key terms to guide reporting on responsible investment practices in the Reporting Framework. These definitions may differ from those used or proposed by other authorities and regulatory bodies due to evolving industry perspectives and changing legislative landscapes. Users of this report should be aware of these variations, as they may impact interpretations of the information provided.

Data accuracy

This document presents information reported directly by signatories in the 2023 reporting cycle. This information has not been audited by the PRI or any other party acting on its behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented.

The PRI has taken reasonable action to ensure that data submitted by signatories in the reporting tool is reflected in their official PRI reports accurately. However, it is possible that small data inaccuracies and/or gaps remain, and the PRI shall not be responsible or liable for such inaccuracies and gaps.

SLS 1	CORE	N/A	N/A	PUBLIC	Senior Leadership Statement	GENERAL

Section 1. Our commitment

- Why does your organisation engage in responsible investment?
- What is your organisation's overall approach to responsible investment, and what major responsible investment commitment(s) have you made?

Our public purpose is to provide the additional income for all citizens in the post-productive pension age. In all our actions, we emphasize the element of longstanding, stability and social responsibility. We believe only the organization that behaves responsibly can be successful in the long run and thus beneficial to shareholders, clients and employees. Only this way can have the organisation positive effect on whole society and can contribute to its further growth and development.

Long term sustainability and social responsibility has become integral part of our corporate strategy. It reflects and influences our activities on an economic, ethical and environmental level. Integral part of our social responsibility is establishment of the Principles of Responsible Investment and full compliance in management of pension savings.

Our responsible investing is a long-term oriented investment approach, which consists in taking into account a broad perspectives of the investment process, which focuses not only on economic factors but also on aspects ecological, social and business management. Responsible investing combines basic investment analysis and evaluation of compliance with ESG factors with the aim of achieving higher long-term returns for investors and at the same time achieving a positive impact on those responsible and the sustainable behavior of issuers of securities.

In practice, these principles are integrated into the entire investment process and the core of this process is the analysis of ESG criteria. We are convinced that such an approach brings not only significant positive benefits for society, but also leads to stable and long-term returns and can bring positive effect in the form of a reduction in investment risk factors.

We make maximum use of knowledge and experience we have in our Erste Bank financial group. Erste Asset Management, which has more than 19 years of experience in responsible and sustainable investing, is our exclusive partner and ensures implementation and compliance with unified principles of responsible investment.

Section 2. Annual overview

- Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.
- Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. Details might include, for example, outlining your single most important achievement or describing your general progress on topics such as the following (where applicable):
 - refinement of ESG analysis and incorporation
 - stewardship activities with investees and/or with policymakers
 - collaborative engagements
 - attainment of responsible investment certifications and/or awards

In the last year we improve our transparency by publishing additional data about investment portfolios and up to date instruments on website and setting the regular update. Everyone can check our RI commitments and process setting together with actual investment instruments in all our pension funds. We provide the first and the only one Responsible Investments Pension Fund in the Czech Republic. In this fund we built in the last year the sub-portfolio of green bonds e.g. Fonds Vert Ville de Paris or Transport for London. This way we have started to implement the elements of impact investing.

Implementation of REGULATION (EU) 2019/2088 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on sustainability-related disclosures in the financial services sector (SFDR). Classification Artical by SFDR.

Section 3. Next steps

- What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

We plan the initiation, implementation and focus on thematic investments in relation to circular economy setting and climate change shift.

Impact investments and green bonds focus in next years.
