

CARD ACTIVATION

You can activate your card

- In our Internet or mobile banking
- With a George payment to a merchant where you enter your PIN
- With any operation in an ATM

PIN FOR YOUR CARD

You can display your PIN

- In your George Internet banking
- In your George mobile banking using the George Key application

If you chose the delivery of PIN by mail, you will receive it in a separate letter.

CARD SETTINGS

You can block your card, modify your limits and set other features of your card in your George Internet or mobile banking or with the help of your personal banker.

CONTACTLESS PAYMENTS

For contactless payments, place your card's rear side with the  logo to a payment terminal.

The card enables payments via **Apple Pay**, **Google Pay**, **Garmin Pay** and **Fitbit Pay**.

DIGITAL INFORMATION CARD WITH YOUR **WORLD ELITE METAL**

You can keep all the required information for your payment card in a single location:

- **Your card's limits and options**
- **Current contacts to your banker and customer service line**
- **News and special experience events for Erste Private Banking clients**

How do you load the **DIGITAL INFORMATION CARD** into your smart phone?

Launch the Camera application.

Scan the QR code and click on the pop-up window that shows at the top of your display.

Add the digital information card to your Wallet application.

ANDROID

Launch the QR code scanning application.

Scan the QR code and click on the link.

With your browser open, click on the "G Pay – Save in the Phone" button.

Click "Save".

You can set DAILY LIMITS on your card for payments to merchants and on the Internet and for cash advances from the ATM as you need.

**THE MAXIMUM
LIMITS
FOR YOUR
CARD ARE:**

Payments to merchants	CZK 500,000
Payments on the Internet	CZK 200,000
Cash advances from the ATM	CZK 100,000

You can check your current card limit settings in the George mobile and Internet banking or with your banker.
