

MiFID II product governance / Retail investors, professional investors and ECPs – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority (ESMA) on 3 August 2023, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**) MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the determination of the appropriate channels for distribution of the Notes to retail clients has been made and is available on the website <https://regulatory.sgmarkets.com/#/mifid2/emt>, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MiFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**UK MiFIR**); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes, Calculation Agent of the Notes and sponsor or adviser of the underlying index.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

The value of the Notes is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is/are determined on the basis of the condition which is

satisfied (or not) if the performance of the underlying instrument is higher than or equal to a predefined barrier performance. Performance of the underlying instrument can be locked, and/or capped.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital. The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

2.6 Determination of the Index Level, “IL(t)”

The Index Level is in respect of Calculation Date (t), calculated by the Index Calculation Agent at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

For any Calculation (t) $\geq t_B + 3$:

$$IL(t) = IL(t - 1) \times \left[1 + E(t - 1) \times \left(\frac{UBL(t)}{UBL(t - 1)} - 1 \right) - SF \times \frac{ACT(t - 1, t)}{365} \right] - TC(t - 1)$$

Otherwise,

$$IL(t) = 1000$$

2.7 Determination of the Underlying Basket Level, “UBL(t)”

The Underlying Basket Level is, in respect of any Calculation Date (t), calculated by the Index Calculation Agent in accordance with the following formula:

For any Calculation (t) $\geq t_{CB} + 1$:

$$UBL(t) = UBL(t - 1) \times \left[\left(\frac{CP(t) \times FX(t)}{CP(t - 1) \times FX(t - 1)} - (IR(t - 1) + RC) \times \frac{ACT(t - 1, t)}{360} \right) \right]$$

Otherwise,

$$UBL(t) = 1000$$

2.8 Determination of the Exposure “E(t)”

The Exposure is, in respect of Calculation Date (t), determined by the Index Calculation Agent in accordance with the following formula:

$$E(t) = \text{Min} \left[\frac{TV}{HV(t - 2)} \times VAF(t - 2), 100\% \right]$$

2.9 Determination of the Volatility Adjustment Factor “VAF(t)”

The Volatility Adjustment Factor is, in respect of Calculation Date (t), determined by the Index Calculation Agent in accordance with the following formula:

For any Calculation Date (t) $\geq t_B + 3$:

$$VAF(t) = \text{Min} \left[120\% ; \text{Max} \left[80\% ; \sqrt{\text{Max} \left[1 + \frac{\alpha(t)}{126} \times \left(1 - \left(\frac{IHV(t)}{TV} \right)^2 \right) ; 0 \right]} \right] \right]$$

Otherwise,

$$VAF(t) = 1$$

Where, $\alpha(t) = \text{Min}[N(t_B + 2, t) ; 126]$

2.10 Determination of the Underlying Basket Component Historical Volatility, “HV(t)”

SGI Global Nuclear VT 8 Index
(EUR)

The Underlying Basket Component Historical Volatility is, in respect of Calculation Date (t), determined by the Index Calculation Agent in accordance with the following formula:

For any Calculation Date (t) $\geq t_{CB} + 22$:

$$HV(t) = \sqrt{\frac{1}{20} \times \sum_{k=0}^{19} \left[\sqrt{\frac{365}{ACT(t-k-3, t-k)}} \times \ln\left(\frac{UBL(t-k)}{UBL(t-k-3)}\right) \right]^2}$$

Where “ln” means the logarithm to the base e.

2.11 Determination of the Index Historical Volatility “IHV(t)”

The Index Historical Volatility is, in respect of Calculation Date (t), determined by the Index Calculation Agent in accordance with the following formula:

For any Calculation Date (t) $\geq t_B + 3$:

$$IHV(t) = \sqrt{\frac{1}{\alpha(t)} \times \sum_{k=0}^{\alpha(t)-1} \left(\sqrt{\frac{365}{ACT(t-k-3, t-k)}} \times \ln\left(\frac{IL(t-k)}{IL(t-k-3)}\right) \right)^2}$$

Where, “ln” means the logarithm to the base e, and $\alpha(t) = \text{Min}[N(t_B + 2, t); 126]$.

2.12 Determination of the Aggregate Transaction Cost, “TC(t)”

The Aggregate Transaction Cost is, in respect of a Calculation Date (t), calculated by the Index Calculation Agent in accordance with the following formula:

For any Calculation Date (t) $> t_B + 1$:

$$TC(t) = \left| E(t) \times \frac{IL(t)}{CP(t) \times FX(t)} - E(t-1) \times \frac{IL(t-1)}{CP(t-1) \times FX(t-1)} \right| \times TC \times CP(t) \times FX(t)$$

Otherwise,

The SGI Global Nuclear VT 8 Index (the "Reference Underlying") features a built-in function designed to enhance its stability during periods of market turbulence by maintaining the volatility close to 8% by adjusting exposure to the SGI Global Nuclear Index Net Total Return (the "Sub-Index"), aims to capture the performance of a basket of stocks exposed to the entire nuclear supply chain sector, spanning from uranium mining to nuclear equipment and utilities.

The SGI Global Nuclear VT 8 Index (the "Reference Underlying") is calculated as an excess return Index which means the return that investors can achieve is given by the index components subtracted the return from a risk-free investment

The SGI Global Nuclear VT 8 Index presents a currency exchange risk because the values of its components, quoted in foreign currencies, are converted into Euro. Thus, the performance of the underlying index may be significantly affected, positively or negatively, depending on the evolution of the exchange rate of these foreign currencies against the Euro.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

Any sale of the Notes prior to the scheduled maturity date will result in the loss of the full protection of the amount invested.

Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

The market value of the Notes depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Notes and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or early redemption of the Notes and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

- The composition of certain indices to which the Notes are linked, and the methodologies used in relation to these indices, can be determined and selected by Société Générale or one of its related companies. In the choice

of these methodologies, it can be expected that Société Générale or the relevant related company of Société Générale will take into account its own objectives and interests and / or those of the Group, and no guarantee can be given that the methodologies chosen will not be less favorable for the interests of investors than the methodologies used by other index sponsors in comparable circumstances.

If the hedging activities of Société Générale or one of its related companies are disrupted in relation to a particular index, Société Générale or the related company concerned may decide to end the calculations of this index, sooner than would another index sponsor in comparable circumstances. This could cause adjustments, de-indexation, substitution of the Underlying(s), or the early redemption of the Notes.

-Conflicts of interest in connection with proprietary indices

Société Générale acts as sponsor of proprietary indices (SGI Indices). These indices are calculated by an external calculation agent in accordance with rules which describe the methodology for determining the composition and calculation of these proprietary indices (the Rules).

[With regard to proprietary indices composed in a discretionary basis by Société Générale or an affiliate of Société Générale to which Notes are linked, Société Générale may face a conflict of interest between its obligations as issuer of these Notes and as a composer of these indices, given that the determination of the composition of these indices may have an impact on the value of the Notes.]

[With regard to proprietary indices composed by a third party to which the Notes are linked, Société Générale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it can modify or supplement the Rules, in accordance with the Rules, which may have an impact on the value of the Notes.]

[With regard to proprietary indices composed by the application of a mathematical formula in a non-discretionary manner by Société Générale or any third party, Société Générale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it may modify, in accordance with the Rules, certain parameters (such as the funding spread) or provide the assessment of certain components, which may have an impact on the value of the Notes.]

WHY IS THIS PROSPECTUS BEING PRODUCED?

This prospectus is drawn up for the purposes of the public offer of the Notes.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes, Calculation Agent of the Notes and sponsor or adviser of the underlying index.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded. Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

Zpráva Auditora je bez výhrady.

Hlavní rizika, která jsou specifická pro ručitele:

Vzhledem k tomu, že Société Générale plní roli ručitele a protistrany Emitentových hedgingových transakcí, investoři jsou v zásadě vystaveni úvěrovému riziku Société Générale a v případě neplnění Emitenta nemají vůči Emitentovi žádný rekurz.

JAKÁ JSOU HLAVNÍ RIZIKA, KTERÁ JSOU SPECIFICKÁ PRO TYTO CENNÉ PAPIRY?

Jakýkoli prodej Dluhopisů před plánovaným dnem splatnosti bude mít za následek ztrátu plné ochrany investované částky.

Likviditu produktu mohou nepříznivě ovlivnit některé výjimečné okolnosti. Může se stát, že investor nebude schopen produkt lehce prodat nebo že jej bude muset prodat za cenu, která způsobí celkovou nebo částečnou

ztrátu investované částky.

Tržní hodnota Dluhopisů závisí na vývoji tržních parametrů v době prodeje (cenové úrovni Podkladového nástroje/Podkladových nástrojů, úrokových sazbách, volatilitě a úvěrovém rozpětí), a proto může vyústit v riziko celkové nebo částečné ztráty původně investované částky.

Události netýkající se Podkladového nástroje/Podkladových nástrojů (např. změna zákonů, včetně daňových zákonů, vyšší moc, počet cenných papírů v oběhu) mohou vést k předčasnému odkupu Dluhopisů, a tak k úplné nebo částečné ztrátě investované částky.

Události mající vliv na Podkladový nástroj/Podkladové nástroje nebo hedgingové transakce mohou vést k úpravám, ukončení indexace, nahrazení Podkladového nástroje/Podkladových nástrojů, nebo předčasnému splacení Dluhopisů, a v důsledku toho ke ztrátě investované částky, i v případě ochrany kapitálu.

Pokud měna investorových hlavních činností je jiná než měna produktu, investor je vystaven měnovému riziku, zejména v případě měnových omezení, což může snížit investovanou částku.

- Složení některých indexů, na které jsou Dluhopisy navázány, a metodiky používané ve vztahu k těmto indexům může určit a vybrat Société Générale nebo některá z jejích spřízněných společností. Při výběru těchto metodik lze očekávat, že Société Générale nebo příslušná spřízněná společnost Société Générale zohlední své vlastní cíle a zájmy a/nebo zájmy Skupiny, a nelze zaručit, že zvolené metodiky nebudou pro zájmy investorů méně příznivé než metodiky používané jinými organizátory indexů za srovnatelných okolností.

Pokud dojde k narušení zajišťovacích činností Société Générale nebo některé z jejích spřízněných společností ve vztahu k určitému indexu, může se Société Générale nebo příslušná spřízněná společnost rozhodnout ukončit výpočet tohoto indexu dříve, než by to za srovnatelných okolností udělal jiný organizátor indexu. To může způsobit úpravy, deindexaci, nahrazení Podkladového aktiva (Podkladových aktiv) nebo předčasné splacení Dluhopisů.

- Střet zájmů v souvislosti s vlastními indexy

Société Générale působí jako organizátor vlastních indexů (SGI Indices). Tyto indexy jsou vypočítávány externím agentem pro výpočty v souladu s pravidly, která popisují metodiku pro stanovení složení a výpočet těchto vlastních indexů (dále jen „Pravidla“).

[Pokud jde o vlastní indexy sestavované na základě vlastního uvážení Société Générale nebo přidruženou společností Société Générale, na které jsou Dluhopisy navázány, může Société Générale čelit střetu zájmů mezi svými povinnostmi jako emitenta těchto Dluhopisů a jako sestavovatele těchto indexů, vzhledem k tomu, že určení složení těchto indexů může mít dopad na hodnotu Dluhopisů.]

[Pokud jde o vlastní indexy sestavené třetí stranou, na které jsou Dluhopisy navázány, může Société Générale čelit střetu zájmů mezi svými povinnostmi emitenta těchto Dluhopisů a organizátora těchto indexů, pokud může v souladu s Pravidly měnit nebo doplňovat Pravidla, což může mít dopad na hodnotu Dluhopisů.]

[Pokud jde o vlastní indexy, které Société Générale nebo jakákoli třetí strana sestavuje na základě nediskrečního použití matematického vzorce, může Société Générale čelit střetu zájmů mezi svými povinnostmi emitenta těchto Dluhopisů a organizátora těchto indexů, pokud může v souladu s Pravidly měnit některé parametry (například rozpětí financování) nebo zajišťovat ocenění některých složek, což může mít dopad na hodnotu Dluhopisů.]

Podmínky nabídky: Nabídky Dluhopisů jsou podmíněny jejich vydáním a případnými dalšími podmínkami stanovenými ve standardních obchodních podmínkách finančních zprostředkovatelů, které tyto příslušní finanční zprostředkovatelé oznámí investorům. Emitent si vyhrazuje právo ukončit Nabídkové období před jeho stanoveným koncem z jakéhokoli důvodu. Emitent si vyhrazuje právo kdykoli k Datu emise nebo před tímto datem z jakéhokoli důvodu nabídku stáhnout a emisi Dluhopisů zrušit. Pro vyloučení pochybností se uvádí, že pokud potenciální investor podal jakoukoli žádost a Emitent takové právo uplatní, není žádný potenciální investor oprávněn Dluhopisy upsat ani jinak nabýt. V každém případě bude oznámení investorům o předčasném ukončení nebo odstoupení od smlouvy uveřejněno na internetových stránkách Emitenta

Zájmy fyzických osob na emisí/nabídce:

Pokud je Emitentovi známo, kromě případných poplatků splatných Dealerovi žádná osoba zapojená do emise Dluhopisů nemá žádný zájem, který je pro nabídku významný. V rámci běžného obchodního styku se Dealer a jeho spřízněné osoby účastní a v budoucnosti se mohou účastnit investičních bankovních a/nebo komerčních bankovních transakcí s Emitentem a jeho spřízněnými osobami a těmto osobám mohou rovněž poskytovat další služby. Société Générale bude zajišťovat roli poskytovatele hedgingových nástrojů Emitentovi Dluhopisů, Agentu pro výpočty Dluhopisů a organizátora nebo poradce u podkladového indexu. Nelze vyloučit možnost střetu zájmů mezi rozdílnými rolemi Société Générale na jedné straně a mezi zájmy Société Générale v těchto rolích a zájmy Majitelů Dluhopisů na straně druhé.

Navíc, vzhledem k bankovním aktivitám Société Générale mohou vzniknout střety zájmů mezi zájmy Société Générale jednajících v těchto postaveních (včetně obchodního vztahu s emitenty investičních nástrojů, které jsou podkladovými nástroji Dluhopisů, nebo disponování neveřejnými informacemi ve vztahu k nim) a zájmy Majitelů Dluhopisů. Konečně, aktivity Société Générale ve vztahu k podkladovému investičnímu nástroji/podkladovým investičním nástrojům, ať na její vlastní účet nebo na účet jejich zákazníků, nebo uzavření hedgingových transakcí může také mít vliv na cenu těchto nástrojů a jejich likviditu, a proto může být ve střetu se zájmy Majitelů Dluhopisů.
