1. GENERAL INFORMATION

DISCLOSURE REQUIREMENTS COVERED: ART. 436 (a) CRR

Erste&Steiermärkische Bank d.d. („Bank”) was established in 1954 and was entered into the Court Register as a joint stock company on 24 January 1990. The Bank’s registered head office is at Jadranski trg 3a, Rijeka, the Republic of Croatia.

The Bank is the holding company for the Erste Bank Croatia Group (“Group”) that operates in the Republic of Croatia, Republic of Montenegro, Republic of Slovenia and Republic of North Macedonia.

The Bank is licensed to conduct commercial banking activities in the Republic of Croatia. The Bank’s main operations are as follows:

- accepting deposits from the clients and deposits placement,
- granting loans, issuing guarantees and letters of credit to the individuals, companies, public institutions and other clients,
- treasury operations in the interbank market,
- trust management and investment banking services,
- performing domestic and international payments,
- providing banking services through an extensive branch network in the Republic of Croatia.

The Bank's share capital, fully subscribed, amounts to HRK 1,698,417,500.00 and is divided into 16,984,175 ordinary shares. As of December 30, 2015, all shares of the Bank hold companies Erste Group Bank AG (10,023,326 shares or 59.02%) and Steiermärkische Bank und Sparkassen AG (6,960,849 shares or 40.98%).

2. OWN FUNDS

Since 1 January 2014, the Group has been calculating the regulatory capital and the regulatory capital requirements according to Basel III. The requirements were implemented within the EU by the CRR and the Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 (CRD IV) that were enacted in national law in Croatian Credit Institutions Act (ZOKI), as well as within various technical standards issued by the European Banking Authority (EBA).

All requirements as defined in the CRR, ZOKI and the aforementioned technical standards are fully applied by the Group for regulatory purposes and for the disclosure of prudential requirements.

Based on the Regulation (EU) 2017/2395 of the European Parliament and of the Council, the Group does not apply the transitional period for mitigating the impact of IFRS 9 on own funds that arise from the calculation of the expected credit loss.

Group's total capital ratio as of September 30, 2019 is 18.92%, and own funds are HRK 9,103 million.

2. OWN FUNDS (CONTINUED)

The Bank uses the internal ratings model method („IRB approach“) for the following **credit risk** exposure categories:

1. Founding IRB approach (“FIRB“) for exposures towards:
 - central governments and central banks,
 - institutions and in relation to subcategories of the institution exposures: banks, public government bodies and financial institutions to which the CNB issued approval for making business operations and which meet the same prudential requirements as credit institutions,
 - corporations and
 - equity shares – simple risk weight approach.
2. Advanced IRB approach (“AIRB“) for exposure towards retail customers.
3. Gradual IRB approach implementation approval is given to:
 - the Bank for the category of exposure towards institutions, the exposure subcategory of local and regional self-management authority,
 - the entities within the Group of institutions in the Republic of Croatia: Erste Factoring d.o.o. and Erste bank a.d. Podgorica.
4. Permanent exemption or implementation of standardized approach is approved for:
 - subcategories of exposure: non-profit public companies which do not meet requirements set for public government entities; leasing companies; insurance companies; investment companies; all other unclassified exposures,
 - exposures towards counterparty credit risk,
 - exposures towards equity shares in companies whose credit commitments meet the requirements set for the 0% risk weight based on the standardized approach.

The Bank started with the application of IRB approach with the reporting date as of 30 September 2011. For the group members standardized approach for credit risk exposure is used.

The capital requirement calculation for the Bank’s **operational risk** is calculated using standardized approach (“TSA”), according to the Title III of CRR, Article 317. The Group members Erste Card Club d.o.o. and S-Leasing d.o.o. have started to apply TSA, while other members apply Basic indicator approach (“BIA“) in accordance to the Article 315 of the same Title of CRR.

Market risk for the Group is calculated using standardized approach.

The table below presents the composition of the regulatory capital based on the Commission Implementing Regulation (EU) No 1423/2013 on the disclosure of own funds published in the Official Journal of the EU.

3. SCOPE OF CONSOLIDATION

DISCLOSURE REQUIREMENTS COVERED: ART. 436 CRR

The regulatory scope of consolidation is defined in Part One, Title II and Chapter 2 Section 3 of the CRR. The definition of entities to be consolidated for regulatory purposes are mainly defined in Articles 4 (1) (3) and (16) to (27) CRR in line with the Articles 18 and 19 CRR. Based on the relevant sections in Article 4 CRR, entities to be consolidated are determined based on the business activity of the relevant entities.

Main differences between the accounting scope and the regulatory scope based on the different requirements as defined within IFRS and CRR:

- based on the CRR, mainly credit institutions pursuant to Article 4 (1) (1) CRR, investment firms pursuant to Article 4 (1) (2) CRR, ancillary services undertakings pursuant to Article 4 (1) (18) CRR and financial institutions pursuant to Article 4 (1) (26) CRR have to be considered within the regulatory scope of consolidation. Under IFRS all other entities not required to be consolidated under CRR, such as insurance undertakings, must be included in the accounting scope of consolidation.
- exclusion of entities from the regulatory scope of consolidation can be applied based on Article 19 CRR. According to Article 19 (1) CRR, entities can be excluded from the regulatory scope if their total assets and off balance sheet items are less than the lower amount of either EUR 10 million or 1% of total assets and off balance sheet items of the parent company. The Group makes use of Article 19 (1) CRR.
- according to Article 19 (2) CRR, entities can also be excluded if the limits defined in Article 19 (1) CRR are exceeded, but are not relevant for regulatory purposes. Exclusion of entities based on Article 19 (2) CRR needs prior approval of the competent authorities. For entities that exceed the limits as defined in Article 19 (1) CRR by insignificant amounts, the Group apply Article 19 (2) CRR and follows the requirements for the approval process as defined within this article. The Group does not apply Article 19 (2) CRR for credit institutions and investment firms.

Ordinary shares of the Erste&Steiermärkische Bank d.d. represent fully subscribed share capital in amount of HRK 1,698,417,500.00 and it is fully paid. Bank's share capital is divided into 16,984,175 ordinary shares issued in dematerialized form, each par value of HRK 100.00, which are registered at Central Depository and Clearing Company ("SKDD") under RIBA-R-A mark and has no maturity. Each share bears one voting right on General Assembly. Bank's shares are conducted in central depository and Clearing Company Inc., Zagreb. Dividends are paid out to shareholders according to their share in capital. Every increase or decrease of paid up capital has to be based on decision by General Assembly. Instruments are not secured neither are covered with guarantee which upgrade status from creditor.

Subordinated loans shown in table main capital's features meet the conditions regulated by Article 63 CRR for recognition as Tier II capital instruments.

5. LEVERAGE RATIO

DISCLOSURE REQUIREMENTS COVERED: ART. 451 CRR

The leverage ratio represents the relationship between Tier 1 and the leverage exposure pursuant to Article 429 CRR. Essentially, the leverage exposure represents the sum of unweighted on balance sheet and off balance sheet positions considering valuation and risk adjustments as defined in the CRR.

As of 30 September 2019, the leverage ratio for the Group amounted to 10.36%. The calculation is based on the Delegated Regulation (EU) 2015/62 of 10 October 2014, which was published in the Official Journal of the European Union on 17 January 2015. As such, the ratio is calculated on period-end values as of 30 September 2019, while the Tier 1 capital is determined based on fully loaded Basel III definitions, i.e. not including any transitional provisions.

5. LEVERAGE RATIO (CONTINUED)

The following table provides a breakdown of the total leverage exposure measure into its main parts as well as the calculation of the period-end leverage ratio as of 30 September 2019.

The disclosure table has been aligned with the table proposed by the Implementing Technical Standards (EBA/ITS/2014/04rev1) published by the EBA on 15 June 2015.

Line items that were not relevant to the Group were omitted; therefore, the numbering of lines in the table is not consecutive.

5. LEVERAGE RATIO (CONTINUED)**Obrazac LRQua: Free format text boxes for disclosure on qualitative items****Management of the risk of excessive leverage**

Leverage ratio is one of the core risk metric included in the Group Risk Appetite Statement ("RAS"). The leverage ratio is planned as part of the annual forecasting and budgeting process. As a RAS metric, the development of the leverage ratio is regularly monitored by the Management Board and Supervisory Board and reported to relevant counterparties in Erste Holding. Leverage ratio is calculated quarterly.
