

Obavještenje o promjenama Odluke o naknadama za usluge platnog prometa sa poslovnim subjektima

Poštovani klijenti,

Obavještavamo vas o promjenama Odluke o naknadama za usluge platnog prometa u poslovanju sa poslovnim subjektima, u primjeni od 20.6.2026.

Odluka o naknadama usklađena je sa Odlukom o izmjenama Odluke o minimalnoj vrijednosti platnih transakcija koje moraju biti procesuirane u RTGS* sistemu („Službeni list Crne Gore“ br. 065/26 od 15.5.2026. godine), a koja definiše povećanje minimalne vrijednosti platnih transakcija koje moraju biti procesuirane u RTGS sistemu sa 1.000,00 EUR na 3.000,00 EUR. Shodno tome, u Odluci o naknadama za usluge platnog prometa u poslovanju sa poslovnim subjektima, korigovana je gornja granica za izvršavanje naloga u DNS-u i RTGS-u za uplatu javnih prihoda u redovnom radnom vremenu, sa 999,99 EUR na 2.999,99 EUR. To znači da su naknade za transakcije u iznosu 1.000 – 3.000 EUR sada niže jer umjesto kroz skuplji RTGS sada idu kroz jeftiniji DNS sistem. Izmjena se odnosi na transakcije realizovane putem blagajne i elektronskog bankarstva.

Promjene se odnose na postojeće i nove ugovorne odnose klijenta i Erste banke.

Ukoliko niste saglasni sa navedenim izmjenama, imate pravo da, najkasnije do dana početka njihove primjene, raskinete Okvirni ugovor podnošenjem pisanog zahtjeva Erste Bank AD Podgorica. U slučaju raskida Okvirnog ugovora, naknada za raskid se ne naplaćuje ukoliko je Okvirni ugovor zaključen najduže šest mjeseci prije dana raskida. Ukoliko ne primimo drugačije izjašnjenje, smatraće se da ste saglasni sa navedenim izmjenama.

S poštovanjem,
Erste Bank AD Podgorica

*DNS (Deferred Net Settlement) je sistem u kojem se plaćanja tokom dana prikupljaju, a zatim poravnava samo neto razlika između banaka. Koristi se za masovna, manja plaćanja i ne sprovodi se u realnom vremenu. Za razliku od njega, RTGS (Real-Time Gross Settlement) znači da se svaka transakcija izvršava odmah i u punom iznosu, bez čekanja. Koristi se za velike i hitne uplate gdje je važna brzina i sigurnost.

Notification on Amendments to the Decision on Payment Service Fees for business entites

[Unofficial translation]

Dear clients,

We would like to inform you about amendments to the Decision on Payment Service Fees for business entities, effective as of June 20, 2026.

The Decision on Payment Service Fees for business entities has been aligned with the Decision amending the Decision on the minimum value of payment transactions to be processed through the RTGS* system ("Official Gazette of Montenegro", No. 065/26 dated May 15, 2026), which increases the minimum value of payment transactions to be processed via the RTGS system from EUR 1,000 to EUR 3,000. Accordingly, in the Decision on Fees on Payment Service Fees for business entities, the upper limit for executing external payments – DNS and RTGS orders for the payment of public revenues during regular business hours, has been adjusted from EUR 999.99 to EUR 2,999.99. This means that transaction fees for amounts between EUR 1,000 and 3,000 are now lower, as they are processed through the less expensive DNS system instead of the more costly RTGS system. The amendment applies to transactions carried out via teller services, as well as electronic banking.

The amendments apply to both existing and new contractual relationships between clients and Erste Bank.

If you do not agree with these amendments, you have the right to terminate the Framework Agreement no later than the date they come into force by submitting a written request to Erste Bank AD Podgorica. In case of termination, no termination fee will be charged provided that the Framework Agreement was concluded no more than six months prior to the termination date. If we do not receive a different statement from you, it will be considered that you agree with these amendments.

Kind regards,
 Erste Bank AD Podgorica

*DNS (Deferred Net Settlement) is a system in which payments are collected during the day and only the net difference between banks is settled later. It is used for mass, smaller payments and is not processed in real time. In contrast, RTGS (Real-Time Gross Settlement) means that each transaction is executed immediately and in full, without delay, making it suitable for large and urgent payments where speed and security are essential.
