Remarks:

- A.** Depending on the technical capabilities and/or cut-off times of partner banks, BCR may, but is not required to, process certain transactions received after the cut-off time (similar to those received before the cut-off time).
- B.** BCR reserves the right to change the cut-off times for banking operations and the related processing rules by displaying them at the bank's places of business and/or by sending an information message via electronic banking services

ⁱ The cut-off time is the time of day at which the bank marks a transaction as received on the current business day or the following business day. The cut-off times are indicated according to the official time of Romania GMT+2. Around public holidays, processing times may be subject to change. Cut-off times are defined for business days, except for intrabank payments in RON or foreign currency, where cut-off times are defined for calendar days.

ⁱⁱ A business day is any day on which banks in Romania are open for business and interbank transactions are conducted in Romania. If payment is made in a currency other than the national currency, a Business Day shall mean any day on which banks are open for business/currency exchange transactions concluded in Romania and in the main financial centre with regard to the currency in which the respective payments are made.

ⁱⁱⁱ The currency date is the date on which the transferred amount should be received by the payee's bank, under the proviso that the payee's bank may not credit the payee's account on the same day on which it was received. Crediting and debiting will be based on the due date for promissory notes and bills of exchange.
