application of the modifications, the provisions of the art. 7.3 – 7.5 being applicable. The unchanged CSB provisions will remain applicable only for the Banking Services in progress on the proposed date for the change application, until the moment the respective Banking Services are performed. For any new Banking Services, including of the same nature, the Client requests after the proposed date for CSB change application, the changed provisions of CSB will be applicable.

Also through a written notification sent to the client with a prior notice of 2 months, BCR may unilaterally close any current bank account. The manner in which the closure of the current bank account may be performed upon the client's initiative is regulated in art. 69 – 69.4. The client will not bear any additional Costs for unilaterally denouncing the CSB or any other Convention regarding Payment Services.
- 7.3. The cease of CSB application results in the closing of all Accounts, blockage of all Cards, including the Digital Cards and termination of any Banking Services supply.
- 7.4. The cease of CSB and of any Convention application will produce effects in the future and the Client's obligations due until the termination date and BCR rights derived from the Conventions will produce full effects until the full repayment by the Client of all amounts due to BCR and until the return to BCR of all instruments (Token, Cards, Portable Accessories, etc) made available to him.

- 8.1. BCR will verify the identity of the Client, of his legal representative, of the Proxy or User when initiating the relation and anytime during the supply of Banking Services.
- 8.2. - 8.3. Any Banking Service is supplied only after the Client's identification and, by the case, of his legal representative, of the Proxy and/or User. The same is applicable for solving any other Client request.
- 8.4. BCR has the right to refuse the initiation of continuation of Banking Services supply, as well as to refuse to perform any Banking Transaction or execute any Instruction or any other request in relation thereto: (a) if the Client does not provide the documents and/or information requested by BCR or provides data and/or documents which are false, incomplete or incorrect; or in case BCR has suspicions of fraud or false or has suspicions regarding the purpose or nature of the Banking Transaction or the initiated request.
- 8.5. The Signature Specimens of the Client and of his Proxies will be gathered, according to BCR request, at the moment of Conventions signing or afterwards (e.g. when new Proxies are added, if the case). The Signature Specimens will be stored in BCR systems.

- 8.6. BCR has the right to refuse to perform any Banking Transaction or any other request issued by the Client if BCR has suspicions regarding the reality of declarations or of the documents supplied by the Client, including when the identification elements supplied by the Client or by his Proxy/User do not match those registered in BCR records.

9. KNOW-YOUR-CLIENT PROCEDURE. MONEY LAUNDERING PREVENTION

- 10.1. In the relation with BCR, the Client may act in person, through the Digital User or by Proxy. The provisions related to the Digital user may be found under art. 93.8.
- 10.2. Mandate based on account opening Convention. The Client can set up one or several Proxies, by nominating them when opening the Account or later, by an addendum signed in front of BCR representatives. BCR will identify the Proxy, according to the rules set up in Clause 8 (Client's Identification). The mandate remains valid for the whole period of Convention until BCR receives from the Client a written notification regarding its revocation, cease or change due to any reasons. - 10.6. BCR reserves the right: (i) to request the Client to register with the National Notary's Register of Power of Attorneys and their Revocations ("RNNEPR") the power of attorneys in authentic form; and (ii) to make verifications in RNNEPR regarding the revocation of these powers of attorney. The revocation verification is usually made when the power of attorney is presented for the first time, as well as later, whenever BCR thinks such a verification is necessary both to avoid some Banking Transactions that might prejudice the Client, as to observe the banking know-your-client requirements and practices. The verification by BCR if a power of attorney is registered and/or revoked is commissioned according to the Standard Commissions Tariff valid on the verifications date in RNNEPR.
- 10.7. The verification of power of attorneys in RNNEPR will take place in Working Days, during the Working Timetable displayed in the Banking Units and on the Internet Page, but without exceeding COT set up by BCR for power of attorneys receiving.

15. CATEGORIES OF DATA

- 15.1. In order to meet the aforementioned processing purposes, BCR processes the data that the Client provides directly, including data about family members and about the beneficiaries of the payments initiated by the Client, as well as data that BCR generates on their basis or reads from other sources, namely: client identification code, trading data (type, value, Account and/or Card Data), image, voice and behavior recorded by the video or audio recordings, information resulting from the non-compliances reported by any person, the risk degree granted from a KYC/AML or fraud perspective, as well as data resulting from the analyses carried out by our experts for complying with the requirements related to fraud prevention in the context of initiating or monitoring a business relationship, data obtained from the databases which BCR has access to (the Credit Bureau, the Credit Risk Central office, databases published by UN, OFAC and/or EU regarding international sanctions, internal warning lists for fraud prevention purposes, list with politically exposed persons, RECOM, requests from public authorities, receivers), profiles created internally based on the information provided by the Client (for example, investigational profile) or through the combination of data from multiple sources (for example, internal scoring corresponding to the risk profile), information provided by BCR clients - for example, providing data related to the relatives or beneficiaries of the payments initiated by such.
- 15.2. Furthermore, in certain situations, BCR processes the personal data pertaining to the persons performing transactions with our Clients (for example, the surname, first name and data about their accounts).
- 15.3. Refusal to provide personal data may result in the impossibility to provide Banking Services, Banking Transactions and/or to fulfil the other processing purposes by BCR.
- 15.4. The data collected for the purposes mentioned in clause 14 above may be processed for subsequent purposes, to the extent to which the subsequent purposes are compatible with the initial purposes.

16. AUTOMATIC DECISION-MAKING PROCESSES

What profiles does BCR create?

- 16.1. In certain situations, BCR may create profiles with respect to the data subject and / or use automated decision-making in order to achieve the purposes indicated in Article 14 above.
- 16.2. Creating profiles represents the automated processing of the data subject's data to assess or analyse aspects related to his person (preferences, level of indebtedness, conduct or identification on internal or publicly available lists on financing terrorism, money laundry, criminal deeds or fraud). An example of profiling is represented by the level of indebtedness of the data subject resulting from interrogations made in the database of the Credit Risk Register; or the risk degree granted from a fraud or know-your-client perspective, anti-money laundering and combating terrorism, which, under certain circumstances may result in the refusal or restriction of access to BCR services.
- 16.3. Last but not least, BCR may divide its clients depending on several criteria (age, geographical area, contracted product, card usage frequency, incomes, types of expenses, etc.) in order to classify them for marketing and/or for analysis purposes. For example, BCR take into consideration the transaction data (the number and value of the transactions, the industry code of the beneficiaries of payments effected by card, amounts transferred into the accounts) and demographic data (urban/rural area of residence, age) in order to determine the probability acquiring a BCR product or service (such as a Credit Card or a savings product).
- 16.4. What automatic decision-making processes does BCR implement?
- 16.5. BCR may perform automatic decision-making processes which produce legal effects or which may impact the data subject to a significant extent for the following purposes: (i) determining the eligibility of contracting a bank product through the application of automatic eliminatory criteria, for example, reaching a level of indebtedness that is too high compared to registered incomes for contracting a loan or verifying the fraud risk, when the data subject may be denied the provision of Banking Services; (ii) processing performed based on the Profiling Agreement (for example, offering a product based on a profile created with information from multiple sources).

16.6. Regarding these automatic decision-making processes based on the Client's consent or the need to conclude and/or execute the contract, the Client also benefits, in addition to the rights mentioned in clause 20 below, from the following rights: the right to obtain a human intervention; the right to express his point of view; the right to challenge the decision.

17. RECIPIENTS OF PERSONAL DATA

17.1. For the purposes of processing, BCR may disclose some or all of the personal data categories to the following categories of recipients: The Client or the legal representatives of the Client, BCR representatives, BCR's contractual partners, BCR's proxies, BCR and Erste Group entities, public institutions/authorities in Romania or abroad, international organizations, providers of goods and services, banking companies, credit bureaus, debt collection or receivable recovery agents (including assignees of receivables owned by BCR to the Client), the assessors, insurance and reinsurance companies, the employer of the Client based on the legal relationships between it and BCR, market research organizations, as well as other contract partners and authorised partners of BCR, which may be consulted on the Internet Page.

18. PROCESSING PERIOD. DATA LATER DESTINATION

18.1. In order to achieve these processing purposes, BCR will process the personal data during the performance of the Banking Services as well as subsequently in order to comply with the applicable legal obligations, including the provisions on archiving and with the legitimate interests of BCR. It is possible that, following the fulfilment of the legal archiving deadlines, BCR will have anonymization of the data, thus depriving it of personal character and continuing the processing of anonymous data for statistical purposes. The personal data shall be stored during the business relationship and after its conclusion, for the purpose of complying with the applicable legal obligations, as mentioned on the Internet Page, section Privacy Policy. For example, in the case of the administrative databases for direct marketing purposes, the period of processing is influenced by the withdrawal of the marketing consent by the Client and by the need to prove compliance with the legal requirements.

19. DATA TRANSFERS ABROAD

19.1. Currently, in order to accomplish the above-mentioned goals, it is possible that BCR transfers certain categories of personal data outside Romania, in EU/EEA countries: Austria, Czech Republic, Hungary, Croatia, Belgium, Germany, United Kingdom, and outside the EU/EEA to the United States of America (for the transfers through SWIFT). For transfers outside the EU/EEA, BCR will base its transfer of personal data on the standard contractual clauses adopted at European Commission level or other guarantees recognized by law.

19.2. It may be that the above-mentioned transfer states may change in the course of its activities. The Client can get an updated list of countries where your personal data is transferred to the following link: <https://www.bcr.ro/ro/persoane-fizice/informatii-utile/politica-privind-confidentialitatea>.

20. RIGHTS OF TARGETED PERSONS

20.1. The data subjects defined under Clause 13 shall benefit, under the conditions provided by the legislation in the field of personal data processing, from the following rights:

- a) **The right to be informed:** the right to be informed with respect to the processing performed by BCR;
- b) **The right of access to the data:** the possibility to request and receive a confirmation from BCR regarding the details of the data processing (what data is processed by BCR and for what purpose, where and how long it is stored, who has access to it, etc.)
- c) **The right to rectification:** if the data used by BCR is inaccurate or incomplete, it can be updated by means of a request filed by the data subjects to update it (example: if the phone number or the person's email address changed, such person can contact BCR to update this data). This right can be exercised with the right of restriction or opposition.
- d) **The right to erasure ("right to be forgotten"):** the possibility to request the erasure of some or all of the data that BCR has about the data subject. Important! BCR will not be able to meet the request in all cases (examples: the law obliges BCR to keep the data for a certain period, the data is useful for a legitimate interest pursued by BCR such as the defence of a right in court);
- e) **The right to restriction of processing:** the possibility to request BCR not to use the data, but only to store it until a further request from the data subjects has been resolved, namely: the data rectification was requested; the data subject opposed the erasure of the data in the case of unlawful processing; the data subject requested the provision of certain data for the defence of a right; the data subject opposed the processing of the data - see the right to object below;
- f) **The right to data portability:** The data subject may request that data be provided on a commonly used medium, in an easy to quote format (e.g. by email). The data subject may also request for the data to be sent to another operator. Important! BCR will only meet the request for data previously processed on

the basis of the consent of the data subject or for the performance of the contract with BCR and only if the data is processed by automatic means (e.g.: there may be requested an email previously sent by the data subject to BCR).

g) **The right to object:** the data subject may object the data processing based on the legitimate interest pursued by BCR. Important! The law obliges BCR to meet the request only for direct marketing purposes (for example, if the data subject receives emails with advertisements from BCR, he/she may unsubscribe). In the other cases, BCR will balance the interests of the Bank and the particular situation of and presented by the data subject in order to make a final decision. Therefore, it is advisable that the request to object be accompanied by the reasons why the data subject opposes the processing when sending the request.

h) **The rights concerning automated decision-making:** as a rule, the data subject has the right not to be subject to any automated decision-making, if it has legal effects or affects him/her to a significant extent (example: automatic refusal to conclude a contract with the data subject based on data processing). Important! In some situations, the law allows BCR to make such decisions when BCR has the consent of the person concerned or if the decision is made on the basis of the contract that BCR has concluded with him/her. In such cases, the data subject has the right to challenge the decision, express his/her point of view and obtain a verification from a human factor. There are also situations in which the law obliges BCR to implement such automated decision-making processes.

i) **The right to withdraw consent:** if BCR processes the data on the basis of the data subject's consent, the data subject may withdraw his/her consent at any time. Important! The withdrawal of the consent will only be effective for the future. The processing performed for another purpose, such as the performance of the contract, will not be affected by the withdrawal.

j) **The right to file a complaint:** if the data subject is dissatisfied, he/she may file a complaint with the National Supervisory Authority for Personal Data Processing.

20.2. If there is a request regarding the application of the rights guaranteed by GDPR, the data subject will supply details necessary so that BCR could identify the right applied and the fulfilment of the application conditions imposed by the law. As an example, if an application to object certain processing operations performed by BCR is submitted, based on the legitimate interest of the Bank, the data subject should supply information related to his/her particular status, so that BCR could perform the assessment requested by law.

20.3. It is possible that, following the request for data deletion, BCR will anonymize this data (thus depriving it of its personal nature) and continue using them for statistical purposes under these conditions.

20.4. For more details on the processing activities carried out by BCR, as well as for further information on exercising the rights, we may be contacted anytime using the following contact data: request sent to the data protection officer at dpo@bcr.ro – specific for data protection matters; request by Info BCR (24/7) at 0800.801.BCR (0800.801.227) – free from any national network or at contact@bcr.ro; using the data protection request form on the Internet Page, section Privacy Policy, using the internet banking credentials; by post mail; at our headquarters or in the Banking Units; by the Credit Bureau's portal.

20.5. BCR reserves the right to update this chapter, when the details of the processing are updated, the changes being communicated to the Client through the update of this document and making it available on the Internet Page.

20.6. Personal data safety. BCR grants a significant importance to the Client's personal data and understands to ensure adequate security during processing. To this end, BCR implements technical and organizational measures to protect against unauthorized or illegal processing and against accidental loss, destruction or accidental.

21. BANKING SECRET

21.1. BCR will preserve the confidentiality about all actions, data and information regarding the activity conducted regarding the Client, in the conditions provided by the Banking Law and by other applicable regulations.

21.2. The Client understands and accepts that BCR has the right, or by the case, the obligation to disclose such actions, data or information to any enabled authorities according to the Banking Law to request or receive such information.

21.3. BCR will be able to supply any information about any of the targeted persons and the Contractual Documentation as it regards required or appropriate, to any person to whom it intends to assign or transfer all or any of its rights and obligations based on the Contractual Documentation.

21.4. BCR will take all reasonable measures so that its representatives or employees do not use to their personal benefit or to the benefit of others, directly or indirectly, information submitted to the professional secret in the banking field, which they hold or became aware of in any way.

IV. INSTRUCTIONS

22. GENERAL ASPECTS. INSTRUCTIONS FORM

- 22.1. The provisions of this chapter will adequately be applied also as regards the Instructions BCR is sending to a Proxy, User or legal representative of the Client.
- 22.2. BCR will execute a Client's Instruction if it is clear, concrete, complete, sent according to the Contractual Documentation and the regulations applicable to the Client and for the operation the Instruction is referring to. In a contrary case, BCR will be able to refuse to execute the Instructions. Even if an Instruction does not comply with the form provided in the Contractual Documentation, BCR can decide (without being obliged to do so) to execute the respective Instruction if, in the transmitted for, it contains all the specifications required for execution.
- 22.3. In case of Instructions the Client has sent through Remote Banking Services/24 Banking BCR, BCR can request him the confirmation of the respective Instructions by similar or different communication means than those through which the Instruction was transmitted.
