Dear Unit-holders,

We are pleased to present you the following segregation report in accordance with § 65 (3) InvFG 2011 for ABW ERSTE BOND DANUBIA – Investmentfonds in Abwicklung for the period from 1 September 2025 to 30 November 2025.

Information about the Liquidation

Portfolio report

Due to the EU sanctions in effect against Russia and against Russian banks and central depositaries, and due to the Russian sanctions against investors from “unfriendly” jurisdictions including Austria, transactions with Russian securities and asset transfers were not possible on the exchange in Moscow or OTC.

The fund manager still has no access to securities or cash accounts at the depositary bank in Russia.

The portfolio consists of positions in 9 RUB-denominated Russian government bonds and cash.

The fund management is following the situation on the market with all due attention to be able to react swiftly and appropriately to any new developments, as far as action is possible. As soon as conditions allow and the liquidation of individual holdings or the entire Fund is possible, the Management Company will try to determine the timing and procedure for the disposal of the Russian assets with all due care and in the best interests of all Unit-holders.

Market

The RUB appreciated by more than 5% versus the EUR in the period from 1 September 2025 to 30 November 2025. The yields on the RUB-denominated government bonds that are traded on the Moscow Exchange rose by 66 basis points to 14.58% during the reporting period.
