eInvoice Activation

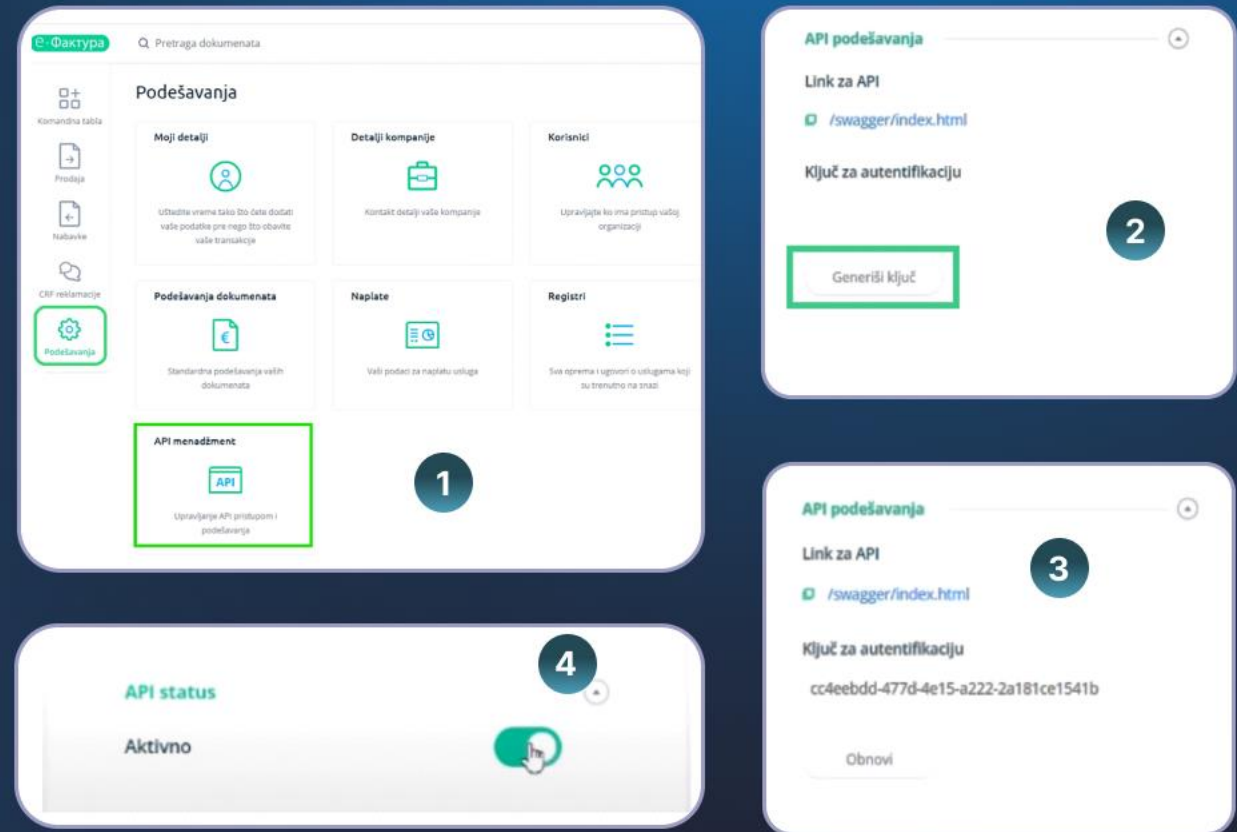

- 1 Choose the eOffice option
- 2 In the eInvoice segment, select **Activate service**
- 3 Input API key from SEF
- 4 Wait for the consent and select **Activate service**

API key generation

Note: If a client has already generated the API key, it should not be renewed, but the existing API key should be used

- 1 Access to SEF <https://efaktura.mfin.gov.rs/> after logging-in to your account, please do the following on path Settings > API management on the SEF portal:
- 2 Click the field Generate key
- 3 Api key is generated
- 4 Change the status to active in the field Api status
