Final Terms

MiFID II Product Governance / Eligible Counterparties, Professional Investors and Retail Investors

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"), and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

The Conditions applicable to the Notes (the "**Conditions**") are the General Conditions contained in the Securities Note and the Issue Specific Conditions set out below.

§ 1

CURRENCY, PRINCIPAL AMOUNT, DENOMINATION, GLOBAL NOTE, BUSINESS DAY AND LANGUAGE

(1) *Currency, Principal Amount, Denomination and Global Note.* This tranche (the "**Tranche**") of notes (the "**Notes**") is being issued by Erste Bank der oesterreichischen Sparkassen AG (the "**Issuer**") in Euro (EUR) (the "**Specified Currency**") in the aggregate principal amount of up to EUR 50,000,000 (in words: fifty million) (the "**Aggregate Principal Amount**") in the denomination of EUR 1,000 (the "**Specified Denomination**" or the "**Principal Amount per Note**") each.

The Notes are represented by a global note without coupons (the "**Global Note**") pursuant to the Austrian Securities Depository Act (Depotgesetz), as amended.

(2) *Business Day.* "**Business Day**" means a calendar day (other than a Saturday or a Sunday) on which the real time gross settlements system operated by Eurosystem or any successor system (T2) is open.

(3) *Language.* These Terms and Conditions are written in the English language only.

§ 2

INTEREST

The Notes do not accrue interest.

§ 3

REDEMPTION

(1) *Redemption.* Unless previously redeemed in whole or in part or purchased and cancelled, the Notes shall be redeemed on the Maturity Date as follows:

(i) by payment of 141 *per cent.* of the Principal Amount per Note (the "**Maximum Redemption Price**") if the Closing Price of the Reference Asset is equal to or greater than the Barrier on Valuation Date or

(ii) otherwise by (x) physical delivery of the Delivery ETF-Shares and (y) if applicable payment of the Cash Amount. Fractions of ETF-Shares will not be delivered.

(2) *Market disruption in relation to the Delivery ETF-Shares.* If the Calculation Agent determines in case of an obligation of the Issuer to deliver the ETF-Shares according to subparagraph (1) that the Valuation Date for calculating the number of Delivery ETF-Shares is an ETF-Disrupted Day, then the Valuation Date shall be the next Scheduled ETF-Trading Day that the Calculation Agent determines is not an ETF-Disrupted Day in respect of the ETF-Share, unless the Calculation Agent determines that each of the consecutive Scheduled ETF-Trading Days up to and including the ETF-Reference Cut-Off Date is an ETF-Disrupted Day. In that case or if the Valuation Date falls on the ETF-Reference Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled ETF-Trading Day:

(a) that ETF-Reference Cut-Off Date shall be deemed to be the Valuation Date for calculating the number of ETF-Shares to be delivered, notwithstanding the fact that such day is an ETF-Disrupted Day or is not a Scheduled ETF-Trading Day; and the Calculation Agent shall determine its good faith estimate of the relevant price at the ETF-Valuation Time on that ETF-Reference Cut-Off Date (and such determination by the Calculation Agent pursuant to this paragraph (a) shall be deemed to be the relevant price at the ETF-Valuation Time in respect of the relevant Valuation Date); or

(b) the Issuer shall repay the Notes by payment of the Redemption Amount per Note.

(3) *Delivery Disruption*. If, in the opinion of the Calculation Agent, delivery of the Delivery ETF-Shares cannot be made due to a Settlement Disruption Event existing on the Maturity Date, the Maturity Date shall be the next Delivery Business Day on which no Settlement Disruption Event exists. If, following the expiry of 8 Delivery Business Days following the Maturity Date, delivery of the Delivery ETF-Shares is still not possible due to a Settlement Disruption Event, the Issuer may instead of a delivery of the Delivery ETF-Shares

(i) deliver shares in a Replacement-ETF, using the method mentioned in sub-section (1) (ii) to calculate the number of shares of the Replacement-ETF to be delivered; or

(ii) fulfil its obligations by paying the Disruption Cash Settlement Amount.

The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with § 10 of the General Conditions that a Settlement Disruption Event has occurred. The Holders shall not have any additional payment claims in the case of a delayed delivery due to the occurrence of a Settlement Disruption Event.

(4) *Delivery Method*. The Delivery ETF-Shares will be delivered to the Holders or to their order by crediting them to a securities depository account with the clearing system, which is the securities depository account of the depository bank of the Holders (or a bank acting as an intermediary depository for the depository bank). Holders do not have a right to promised or paid dividends or other rights arising from the Delivery ETF-Shares, if the date on which the Delivery ETF-Shares are quoted ex dividend or without the other right, is prior to the date on which the Delivery ETF-Shares are credited to the Holders securities account.

(5) *Delivery Fees*. Any expenses, in particular, depository fees, charges, notarisation fees, registration fees, transaction costs or execution fees, stamp duty, stamp duty reserve tax and/or other taxes and duties arising in connection with the delivery of the Delivery ETF-Shares, shall be borne by the relevant Holder; the Delivery ETF-Shares will only be delivered when the relevant Holder has paid all delivery costs to satisfy the Issuer.

(6) *No Registration Obligation*. Neither the Issuer nor the Paying Agent are obliged to register the relevant Holder or any other person prior to or following a delivery of the Delivery ETF-Shares as shareholder in any register of the fund or in any other register or ensure that he will be registered.

A = number of ETF-Shares to be delivered per Note

PA = Principal Amount per Note

If the Multiplier of the Calculation Agent contains fractions of ETF-Shares (in relation to a Note, the **"Residual Fraction"**), a Holder will receive the number of ETF-Shares corresponding with the Multiplier, rounded down to the next lower integral number of ETF-Shares, which can be delivered by the Issuer. The Residual Fraction will be settled in money. The amount to be settled in money is equal to the Cash Amount. For clarification: Notes of the same Holder will not be aggregated for the purpose of determining the number of Delivery ETF-Shares and the number of Delivery ETF-Shares or the Cash Amount will be calculated per Note.

"Delivery Business Day" is a day on which the Delivery ETF-Shares can be delivered via the Clearing

System.

"Related ETF-Exchange" means, in relation to an ETF-Share, each exchange or each principal trading market where trading has a material effect (as determined by the Calculation Agent) on the overall market for such ETF-Shares or, in any such case, any transferee or successor exchange of such exchange or any transferee or successor quotation system of such quotation system (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such ETF-Share on such temporary substitute exchange or temporary substitute quotation system as on the original Related ETF-Exchange).

(b) Notification

The Calculation Agent shall give notice, as soon as practicable, to the Holders in accordance with § 10 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a

Disrupted Day would have been a Reference Date. Any failure by the Calculation Agent to so notify the Holders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence or the consequences of such Disrupted Day.

ADDITIONAL DISRUPTION EVENTS

If any Additional Disruption Event occurs, the Issuer, in its reasonable discretion, may:

- (i) require the Calculation Agent to determine, in its reasonable discretion, the appropriate adjustment, if any, to be made to any of the terms of these Issue Specific Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (ii) terminate the Notes in whole but not in part by giving notice to Holders in accordance with § 10 of the General Conditions. If the Notes are so redeemed, the Issuer will pay to each Holder, in respect of each Note held by such Holder, an amount equal to the fair market price of a Note taking into account the Additional Disruption Event, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps, or other securities of any type whatsoever hedging the Issuer's obligations under the Notes), all as determined by the Calculation Agent in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with § 10 of the General Conditions.

Upon the occurrence of an applicable Additional Disruption Event, the Issuer shall give notice, as soon as practicable, to the Holders in accordance with § 10 of the General Conditions, stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. contracts in securities, options, futures, derivatives, or foreign exchange, (ii) stock loan transactions, or (iii) other arrangements (howsoever described) by the Issuer and/or any of its affiliates in order to hedge, individually or on a portfolio basis, its obligations under the Notes.

"Hedging Disruption" means that the Issuer and/or any of its affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (ii) realize, recover, or remit the proceeds of any such transaction(s) or asset(s).

"Administrator/Benchmark Event" means, in respect of any Note and a Relevant Benchmark, the occurrence or existence, as determined by the Calculation Agent, of any of the following events in respect of such Relevant Benchmark:

For the avoidance of doubt, a Non-Approval Event shall not occur if the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended if, at the time of such suspension, the continued provision and use of the Relevant Benchmark is permitted in respect of the Notes under the Benchmarks Regulation during the period of such suspension;

(b) a **"Rejection Event"**, being the relevant competent authority or other relevant official body rejects or refuses any application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register which, in each case, is required in relation to the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmarks Regulation; or

(c) a **"Suspension/Withdrawal Event"**, being any of the following:

- (i) the relevant competent authority or other relevant official body suspends or withdraws any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark which is required in order for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmarks Regulation; or
- (ii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is removed from any official register where inclusion in such register is required in order for the Issuer or the Calculation Agent to perform its or their respective obligations in respect of the Notes in compliance with the Benchmarks Regulation.

For the avoidance of doubt: a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Relevant Benchmark is permitted in respect of the Notes under the Benchmarks Regulation during the period of such suspension or withdrawal.

"Benchmarks Regulation" means Regulation (EU) 2016/1011 of the European Parliament and the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 (as may be amended from time to time), including any subsidiary legislation or rules and regulations and associated guidance.

"Increased Cost of Hedging" means that the Issuer and/or any of its affiliates would incur a materially increased (as compared with circumstances existing on the Strike Fixing Date) amount of tax, duty, expense, or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind, or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or

other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (ii) realize, recover, or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its affiliates shall not be deemed an Increased Cost of Hedging.

"Change in Law" means that, on or after the Strike Fixing Date, due to (i) the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) the promulgation of or any change in the interpretation by any court, tribunal, or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines, in its reasonable discretion, that (y) it has become illegal for the Issuer and/or any of its affiliates to hold, acquire, or dispose of relevant Hedge Positions (including any Components comprised in an Index), or (z) the Issuer and/or any of its affiliates will incur a materially increased cost in performing its obligations under the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit, or other adverse effect on its tax position).

"Relevant Benchmark" means any rate, level, price, value or other figure in respect of one or more underlyings or other index utilised in order to determine the amount of interest and/or principal and/or any other amount payable or asset deliverable under the Notes, in each case, which is a "benchmark" for the purposes of the Benchmarks Regulation, as determined by the Calculation Agent.

"Additional Disruption Event" means any Change in Law, Hedging Disruption, Increased Cost of Hedging and/or Administrator/Benchmark Event.

§ 7

ADJUSTMENTS IN RESPECT TO THE INDEX

(a) Adjustments

(i) If an Index is (1) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (2) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index, then that index (the **"Successor Index"**) will be deemed to be the Index.

(ii) If the Calculation Agent determines that, (1) on or prior to any Reference Date or other relevant date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for, or the method of, calculating a relevant Index, or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in the Components, capitalization and/or other routine events) (an **"Index Modification"**), or permanently cancels a relevant Index and no Successor Index exists as at the date of such cancellation (an **"Index Cancellation"**), or (2) on any Reference Date or other relevant date, the Index Sponsor fails to calculate and announce a relevant Index (an **"Index Disruption"**) (provided that, the Calculation Agent may, in its reasonable discretion, determine that such event instead results in the occurrence of a Disrupted Day) and, together with an Index Modification and an Index Cancellation, each an (**"Index Adjustment Event"**) then:

the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Index Level using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Reference Date or other relevant date, as the case may be, as determined by the Calculation Agent in accordance with the formula for, and method of, calculating that Index last in effect prior to the relevant Index Adjustment Event, but using only those Components that comprised that Index immediately prior to that Index Adjustment Event (other than those Components that have since ceased to be listed on the relevant Exchange).

If, provided that, in the determination of the Calculation Agent, the above provisions would not achieve a commercially reasonable result, on giving notice to Holders in accordance with § 10 of the General Conditions, the Issuer shall redeem the Notes in whole but not in part, each Note being redeemed by payment of an amount equal to the fair market price of such Note taking into account the Index Adjustment Event, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps, or other securities of any type whatsoever hedging the Issuer's obligations under the Notes), all as determined by the Calculation Agent in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with § 10 of the General Conditions.

(b) Correction of Index Level

If the level of the relevant Index published by the Index Sponsor on any date which is utilized for any calculation or determination (a **"Relevant Calculation"**) is subsequently corrected and the correction is

published by the Index Sponsor (the "**Corrected Index Level**") no later than two Business Days prior to the date of payment of any amount to be calculated by reference to the Relevant Calculation then such Corrected Index Level shall be deemed to be the relevant level for such Index on such day and the Calculation Agent shall use such Corrected Index Level in determining the relevant level.

Why is this prospectus being produced?

Date of the underwriting agreement

There is no firm underwriting in relation to the Notes offered.

Indication of the most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer and its affiliates act as market maker for the Notes and in certain cases, the underlying. In the context of such market making activities, the Issuer and its affiliates will substantially determine the market price of the Notes and possibly of the underlying. The market prices provided by the Issuer and its affiliates in their capacity as market maker may not always correspond to the market prices that would have formed in the absence of such market making and in a liquid market.

Dealers and affiliates of the Issuer may engage in lending, investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Where the Issuer acts as Calculation Agent or the Calculation Agent is an affiliate of the Issuer, in special situations potential conflicts of interest may arise between the Calculation Agent and the Holders, especially referring to a situation where the reference interest rate for Notes with a floating interest rate is no longer available and no clear transitional arrangement has been created and a situation if a currency would disappear and no official exchange rate could be determined at the relevant time. Additionally such potential conflicts of interest may arise, where such functions may allow the Issuer or an affiliate of the Issuer to calculate the value of the reference asset or (where the reference asset is a basket) to determine the composition of the reference asset, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the reference asset, or where the Issuer maintains a business relationship with the issuer or obligor of such securities or assets.

The Issuer may from time to time engage in transactions involving the reference asset for its proprietary accounts and for accounts under its management. Such transactions may have a negative effect on the value of the reference asset and consequently upon the market price of the Notes.

The Issuer may issue other derivative instruments in respect of the relevant reference asset and the introduction of such competing products into the marketplace may affect the market price of the Notes.

The Issuer may acquire non-public information with respect to the reference asset, and the Issuer does not undertake to disclose any such information to any holder. In addition, the Issuer may publish research reports with respect to the reference asset. Such activities could present conflicts of interest and may affect the market price of the Notes.

Employees might undertake deals on their own behalf subject to securities laws on personal account dealings and market abuse as well as statutory and internal compliance standards. Commissions, charges and associated costs of employees may deviate from those of other market participants.
