### Business performance overview of the Issuer as of 31 December 2019

Net interest income went down slightly by 1.6% from EUR 437.8 million to EUR 430.7 million. This decrease is the result of the continuing demand for low interest rates on loan products and a tough competitive environment, resulting in a negative effect on net interest margin which went down from 2.71% to 2.51%.

Net fees and commissions income increased by 12.7% y/y from EUR 128.8 million to EUR 145.2 million. The insurance business was particularly successful in 2019 and compared with 2018 the y/y increase of insurance commission income was EUR 7.5 million. Another positive factor was the increase in fees for card transactions by EUR 4 million. Commission income from trading of securities and fees for repricing and early repayment of loans amounted to EUR 6 million and these were also among the main growth drivers.

The net profit in the amount of EUR 20.7 million in the area of net trading and fair value result is mainly related to the development of the valuation of derivative instruments.

General administrative expenses went up by 2.6% to EUR 288.5 million (in 2018 it was EUR 281.1 million). This increase was mainly recorded in the area of personal expenses.

Cost income ratio remained stable y/y and reached 48.4%.

Total risk costs of the Issuer increased from EUR 23.5 million to EUR 42.6 million. Higher risk costs are mainly related to the portfolio of loans and leasing agreements acquired from the company S Slovensko, spol. s r.o. and the increase in provisions for individual clients in the corporate segment.

The share of defaulted loans on total loan volume decreased from 3.3% to 2.9% while the coverage with provisions remains approximately unchanged (from 80.9% to 80.8%).

The bank levy went up by 7% to EUR 32.5 million. The annual contribution into the Single Resolution Fund reached an estimated amount of EUR 3.1 million (EUR 2.7 million in 2018). The contribution into the Deposit Protection Fund increased by 11% y/y to EUR 1.0 million (EUR 0.9 million in 2018). Total levies of the Issuer were at EUR 36.6 million.

The volume of loans to customers increased by 7.9% y/y and achieved EUR 13.8 billion. Retail loans were the major driving force; they increased by 6.4% y/y (by EUR 0.6 billion) compared with 2018. The Issuer again confirmed its position as market leader in retail loans; its market share reached 26.2% at the end of 2019. The main growth drivers were housing loans which grew by 7.5% (EUR 0.6 billion in absolute terms), while the results for consumer loans remained comparable with the end of 2018 and reached EUR 1.8 billion.
