### B. Significant accounting policies

### a) Statement of compliance

Pursuant to the Article 17a of the Act no. 431/2002 Coll. on Accounting, effective from 1 January 2006 Banks are required to prepare separate financial statements, consolidated financial statements and annual report according to the special regulations – Regulation (EC) no. 1606/2002 of the European Parliament and of the Council on Application of International Accounting Standards. As a result, the financial statements prepared in accordance with International Financial Reporting Standards effectively replaced the financial statements prepared under Slovak Accounting Standards.

These interim separate financial statements for the half year ended 30 June 2019 are prepared in accordance with International Financial Reporting Standards ('IFRS' or 'IAS') as adopted by the European Union ('EU') on the basis of the regulation no. 1606/2002.

IFRS as adopted by the EU do not currently differ from IFRS and interpretations as issued by the International Accounting Standards Board (IASB), except for certain standards issued but not yet effective and certain hedge accounting requirements under IAS 39 which have not been endorsed by the EU. The Bank has assessed that the standards not endorsed by the EU would not impact significantly these separate financial statements if they were applicable as at the presented balance sheet date.

These interim separate financial statements do not contain full information and disclosures as required in the complete set of financial statements as at year end and should be read in combination with separate financial statements for the previous accounting period. The separate financial statements for the year ended 31 December 2018 were signed and authorised for issue by the Board of Directors of the Bank on 13 February 2019 and are available at its registered office or on the web page.

Interim separate financial statements
prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting
as adopted by the European Union for the half year ended 30 June 2019

### b) Basis of preparation

These interim separate financial statements do not include consolidation of assets, liabilities and operational results of subsidiaries. As required by the law, the Bank issued Consolidated Financial Statements prepared in accordance with International Financial Reporting Standards as adopted by the European Union for the year ended 31 December 2018, which were signed and authorised for issue by the Board of Directors of the Bank on 13 February 2019 and are available at its registered office or on the web page.

The Bank holds controlling interests in the subsidiaries and significant influence in the associates described in the note 19. In these interim separate financial statements the subsidiaries and associates are recognised at cost, less any impairment losses.

In accordance with the applicable measurement models defined or allowed by IFRS, these interim separate financial statements were prepared on a cost basis (or amortised cost), except for financial assets and liabilities held for trading, financial assets and liabilities at fair value through profit or loss, financial assets and liabilities at fair value through other comprehensive income, as well as hedging derivatives and related hedged items, all of which were measured at fair value.

These interim separate financial statements are prepared on the basis of the going concern assumption that the Bank will continue to operate in the foreseeable future.

These interim separate financial statements are presented in Euro, which is the functional currency of the Bank. The functional currency represents the currency of primary economic area, in which the entity exists. The measurement unit is thousands of Eur ('Eur ths.'), unless stated otherwise. The amounts in parentheses represent negative values. The tables in these separate financial statements and notes may contain rounding differences.

The comparative amounts presented in these interim separate financial statements are those presented in the Separate statement of financial positions as at 31 December 2018 and the Separate statement of profit or loss and and the Separate statement of other comprehensive income for the half year ended 30 June 2018.

In the following notes, the Statement of financial position may be referred to as 'balance sheet' and the Statement of profit or loss may be referred to as 'income statement'.

### c) Subsidiaries and associates

These interim separate financial statements were prepared based on equal accounting principles, accounting and measurement methods that were used as the basis for the preparation of the separate financial statements for the previous accounting period. During current accounting period for the half year ended 30 June 2019 there were no changes in the accounting principles, accounting and measurement methods used. In compliance with the international accounting standard IAS 34 these interim separate financial statements do not comprise all information and disclosures as required in the separate financial statements as at year end. The complete set of disclosures related to subsidiaries and associates is presented in the separate financial statements for the previous accounting period in the Note Bc).

Interim separate financial statements prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting as adopted by the European Union for the half year ended 30 June 2019

### d) Accounting and measurement methods

Accounting and measurement methods that were used as the basis for the preparation of the interim separate financial statements did not change. In compliance with the international accounting standard IAS 34 these interim separate financial statements do not comprise all information and disclosures related to the accounting and measurement methods. The complete set of disclosures related to accounting and measurement methods are presented in the separate financial statements for the previous accounting period in the Note Bd).

### e) Significant accounting judgements, assumption and estimates

The separate financial statements contain amounts that have been determined on the basis of judgements and by the use of estimates and assumptions. The estimates and assumptions used are based on historical experience and other factors, such as planning as well as expectations and forecasts of future events that are currently deemed to be reasonable. As a consequence of the uncertainty associated with these assumptions and estimates, actual results could in future periods lead to adjustments in the carrying amounts of the related assets or liabilities. The most significant uses of judgements, assumptions and estimates are related to the following areas:

- SPPI assessment;
- Business model assessment;
- · Impairment of financial Instruments;
- Fair value of financial Instruments;
- Deferred tax assets.

Accounting judgements, assumption and estimates that were used as the basis for the preparation of these interim separate financial statements did not change. In compliance with the international accounting standard IAS 34 these interim separate financial statements do not comprise all information and disclosures related to the accounting judgements, assumption and estimates. For the complete set of disclosures related to accounting judgements, assumption and estimates these interim separate financial statements should be read in combination with the separate financial statements for the previous accounting period in the Note Be).

### f) Application of new and amended IAS / IFRS

The Bank has adopted all the standards and interpretations issued by the International Accounting Standards Board (IASB) and the IFRS Interpretations Committee (IFRIC), as adopted by the European Union, which are valid for the current reporting period and relevant for its business.

Interim separate financial statements prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting as adopted by the European Union for the half year ended 30 June 2019

Movement table of credit loss allowances above represents changes in allowances disclosed based on the reason of the change and is prepared as at the end of the reporting period in comparison to the balance as at 1 January of the relevant reporting period. The table contains allocations, releases, reclassifications between stages as well as use of the credit loss allowances. Not all of these movements are accounted through income statement, so the full reconciliation to 'Impairment result from financial instruments' line in the Statement of profit or loss is not achievable. Furthermore certain expenses such as write offs, sales and unwinding are recognised in the balance sheet line 'Financial assets at amortised cost' and are not disclosed in the movement table.

In 2019 the column 'Other adjustments' contains loss allowances acquired in connection with acquisition of part of business from subsidiary S Slovensko, spol. s r.o.

#### Fair value hedge of assets

As at 30 June 2019 the Bank held in portfolio of financial assets at amortised cost fixed rate bonds denominated in Eur with nominal value of 381,2 mil. Eur (2018: 381,2 mil. Eur). As the purchases of these bonds increased exposure to interest rate risk in the period from five to fifteen years, the Bank entered into interest rate swap deals in order to hedge the changes of fair value caused by changes of risk-free interest rates, paying fixed and receiving floating rates.

During the year 2019 the hedges were effective in hedging fair value exposure to interest rate movements. During the period the Bank recognised a net loss on the hedging instruments in the amount of 12,0 mil. Eur (2018: net gain 0,6 mil. Eur). On the other hand, a net gain on the hedged item attributable to the hedged risk amounted to 11,9 mil. Eur (2018: net loss 0,6 mil. Eur).

#### Fair value hedge of liabilities

In July 2007 the Bank for the first time issued fixed rate mortgage bonds with maturity in July 2027, the list of bonds is disclosed in the note 21. As at 30 June 2019 the Bank holds covered bonds (former mortgage bonds) in total notional value of 764,3 mil. Eur (2018: 514,3 mil. Eur).

Interim separate financial statements
prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting
as adopted by the European Union for the half year ended 30 June 2019

During the year 2019 the hedges were effective in hedging fair value exposure to interest rate movements. During the period the Bank recognised a net gain on the hedging instruments in the amount of 18,0 mil. Eur (2018: net loss 0,2 mil. Eur). On the other hand, a net loss on the hedged item attributable to the hedged risk amounted to 18,0 mil. Eur (2018: net gain 0,2 mil. Eur).

### 17. Property and equipment

Increase in the value of Property and equipment relates to initial application of international accounting standard IFRS 16 Leases, which became effective as at 1 January 2019. As at the date of transition to IFRS 16 the Bank recorded the right of use to the property in the amount of 45,1 mil. Eur into the Property and equipment. The value of asset represents the financial valuation of all leasing contracts that relates to real estates used by the Bank. On the liabilities side the Bank recorded liabilities from financial leases in the equal amount. The value of asset is depreciated during the lifetime of the asset. As at 30 June 2019 the value of right of use represents 40,3 mil. Eur and the value of liabilities from financial leases is of 40,7 mil. Eur.

Interim separate financial statements
prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting
as adopted by the European Union for the half year ended 30 June 2019

### Long-term employee pension provisions

The Bank has a defined employee benefit program under which all employees are entitled to a lump-sum payment upon working anniversaries or retirement. The number of employees under this program is disclosed in the note 6.

The amount of long-term employee pension provisions is calculated using an actuarial model based on the projected unit credit method. The Bank performes annual review of the long-term employee benefits provisions using updated data in order to recognize the provisions in appropriate amounts. During the reporting period the provision was not calculated and the value of long-term employee pension provisions remained equal to the year end balance. Complete disclosures related to long-term employee pension provisions as at 31 December 2018 are presented in the individual financial statements for the previous reporting period in the Note 30.

### Provisions for pending legal issues and tax litigation legal issues

Provisions for legal issues relate to legal cases where the Bank is sued and which arose from normal banking activities. During the reporting period the Band does not participate in any new passive legal case. Complete disclosures related to provisions for pending legal issues and tax litigation legal issues are presented in the individual financial statements for the previous reporting period in the Note 30.

### Other provisions

The item 'Other provisions' includes provision on contribution to Resolution fund and provision on contribution to Deposit protection fund during the year. When the actual amount of contributions is announced, the payment is accounted for as utilisation of particular provision. Both contributions for the year 2019 were paid in full amount, therefore the Bank does not disclose these items as other provisions.

Transfer to retained earnings	80 868
Number of shares with nominal value of EUR 1 000 (in pcs.)	212 000
Dividend per share (in EUR)	413

Dividends for the year 2018 were paid in March 2019 following the resolution of General Assembly of the Bank dated 27 March 2019. The first portion of dividend from investment certificate 2015 SLSP AT1 PNC5 was paid in amount of 5,8 mil. Eur as at 23 May 2019.

## Other capital instruments

During the year 2015 the Bank has issued an investment certificate in the amount of 150 mil. Eur that is classified as equity instrument according to the standard IAS 32. This certificate is a perpetual instrument with the agreed interest rate of 7,8 % p.a. paid semi-annually.

### Legal reserve fund

According to Commercial Code all companies are required to create a legal reserve fund to cover adverse financial conditions in the future. The Bank is obliged to contribute to the fund the amount, which is not less than 10 % of its annual net profit until the cumulative amount of annual contributions reaches 20 % of its share capital. As at 30 June 2019 Legal reserve fund amounted to 79,8 mil. Eur (2018: 79,8 mil. Eur) and in both years exceeded the required 20 % of the share capital. Legal reserve fund is not available for distribution to the shareholder.

### Other funds

Other funds include only Statutory fund created from distributable profits to strengthen the Bank's capital base. This fund is not available for distribution to the shareholder. Once the Bank's share capital or legal reserve fund is increased, Statutory fund may be terminated and transferred back to the distributable profits with the approval of the Supervisory Board and of the General Assembly. As at 30 June 2019 Statutory fund amounted 39,1 mil. Eur (2018: 39,1 mil. Eur).

#### Fair value reserve

Fair value reserve represents the unrealised revaluation of financial assets measured at fair value through other comprehensive income. This reserve is not available for distribution to the sharefolder. As at 30 June 2019 the revaluation of financial assets

Interim separate financial statements prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting as adopted by the European Union for the half year ended 30 June 2019

measured at fair value through other comprehensive income amounted to 57,2 mil. Eur (2018: 40,1 mil. Eur), net of deferred tax.

### Remeasurement of net liability of defined pension plans

This equity component reflects the results of actuarial calculations related to the pension provision. As at 30 June 2019 the remeasurement of the pension provision amounted 0,6 mil. Eur (2018: 0,6 mil. Eur), net of deferred tax.

# 25. Related party transactions

## **Related parties**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. The Bank is controlled by the only shareholder Erste Group Bank AG, which directly owns 100 % share on the voting rights of the Bank. Further related parties include subsidiaries, which are under control of the Bank and associates, over which the Bank has significant influence. Moreover, other members of the Erste group are also related parties of the Bank.

Transactions with related parties occur in the normal course of business and primarily include loans and deposits. These transactions are performed at arm's length, i.e. the terms and conditions applied respect market conditions.

Assets and liabilities include accounting balances with related parties, as follows:

# 30. Risk management

During the first half year of 2019 there were no changes in the risk strategy and policy in comparison with annual individual financial statements. For the complete set of disclosures related to risk strategy and policy this interim individual financial statements shoul be read in combination with individual financial statements for the previous year in the Note 39.

### Credit risk exposure

Credit risk exposure relates to the following balance sheet items:

- cash and cash balances other demand deposits;
- financial assets held for trading derivatives (without equity instruments);
- non-trading financial assets at fair value through profit or loss (FVTPL) (without equity instruments);
- financial assets at fair value through other comprehensive income (FVTOCI) (without equity instruments);
- financial assets at amortised cost;
- finance lease receivables;
- positive fair value of derivatives hedge accounting;
- · trade and other receivables;
- off-balance sheet positions (financial guarantees, irrevocable loan and other commitments).

The credit risk exposure comprises the gross carrying amount (or nominal value in the case of off-balance-sheet positions) this means the amount without taking into account loan loss allowances, provisions for guarantees, any collateral held (including risk transfer to guarantors), netting effects, other credit enhancements or credit risk mitigating transactions.

The gross carrying amount of the credit risk exposure increased by 2,19% to EUR 19,266 bil. Eur (31.3.2019: 18,853 bil. Eur).

The assignment of obligors to Basel 3 exposure classes is based on legal regulations. For reasons of clarity, individual Basel 3 exposure classes are presented in aggregated form. The aggregated exposure class 'sovereigns' also contains regional and local governments as well as public sector entities in addition to central governments, central banks, international organisations and multinational development banks. Institutions include banks and recognised investment firms.

Concerning contingent liabilities the gross carrying amount refers to the nominal value, while credit risk provisions refer to provisions for guarantees. The net carrying amount is not presented in the case of contingent liabilities.

# 31. Fair values of financial assets and liabilities

### Financial instruments measured at fair value

All financial instruments of this category are measured at fair value on a recurring basis.

In the Bank the measurement of fair value is primarily based on external sources of data (stock market prices or broker quotes in highly liquid market segments). The financial instruments for which fair value is determined on the basis of quoted market prices are mainly listed securities, liquid OTC bonds and derivatives. During the reporting period there were no changes in the measurement of fair value of financial assets and financial liabilities. For the complete set of disclosures related to fair value this interim individual financial statements should be read in combination with individual financial statements for the previous year in the Note 40.

### Fair value hierarchy

Financial assets and financial liabilities measured at fair value are categorized under the three levels of the IFRS fair value hierarchy.

#### Level 1

The fair value of financial instruments assigned to Level 1 of the fair value hierarchy is determined based on quoted prices in active markets for identical financial assets and liabilities. More particular, the evaluated fair value can qualify as Level 1 if transactions occur with sufficient frequency, volume and pricing consistency on an ongoing basis. These include exchange traded derivatives (futures, options), shares, government bonds as well as other bonds and funds, which are traded in highly liquid and active markets.

### Level 2

In case a market quote is used for valuation but due to restricted liquidity the market does not qualify as active (derived from available market liquidity indicators) the instrument is classified as Level 2. If no market prices are available the fair value is measured by using valuation models which are based on observable market data. If all the significant inputs in the valuation model are observable the instrument is classified as Level 2 of the fair value hierarchy. For Level 2 valuations typically yield curves, credit spreads and implied volatilities are used as observable market parameters. These include OTC derivatives, less liquid shares, bonds and funds as well as asset backed securities (ABS), collateralized debt obligations (CDO) and own issues.

### Level 3

In some cases, the fair value can be determined neither on the basis of sufficiently frequent quoted market prices nor of valuation models that rely entirely on observable market data. In these cases individual valuation parameters not observable in the market are estimated on the basis of reasonable assumptions. If any unobservable input in the valuation model is significant or the price quote used is updated infrequently the instrument is classified as Level 3 of the fair value hierarchy. For Level 3 valuations besides observable parameters typically credit spreads derived from internally calculated historical probability of default (PD) and loss given default (LGD) measures are used as unobservable parameters. These include shares and funds not quoted, illiquid bonds as well as illiquid asset backed securities (ABS) and collateralized debt obligations (CDO).

A reclassification from Level 1 into Level 2 or Level 3 as well as vice versa will be performed if the financial instrument does no longer meet the criteria described above for the respective level.

# 32. Own funds and capital requirements

# Regulatory scope of application

Hereby Slovenská sporiteľňa, a.s. fulfills the disclosure requirements according to the Capital Requirements Regulation issued by European Parliament and Council (EU) no.575/2013 (CRR) and Articles 437 (1) (a), (d), (e) and (f) CRR.

## **Regulatory requirements**

Since 1 January 2014 the Bank has been calculating the regulatory capital and the regulatory capital requirements according to Basel 3. The requirements were implemented within the EU by the Capital Requirements Regulation no. 575/2013 (CRR) and the Capital Requirement Directive no. 36/2013 (CRD IV) that were enacted in national law, as well as within various technical standards issued by the European Banking Authority (EBA).

All requirements as defined in the CRR and the aforementioned technical standards are fully applied by the Bank for regulatory purposes and for the disclosure of regulatory information.

The Bank fulfilled regulatory capital requirements in both years 2019 and 2018 consisting from Pillar 1 requirement, Pillar 2 requirement and combined buffer requirement.

## **Accounting principles**

The financial and regulatory figures published by the Bank are based on IFRS regulatory capital components. Eligible capital components derive from the balance sheet and income statement which were prepared in accordance with IFRS. Adjustments to the accounting figures are considered due to the different definitions in the scopes of consolidation for items where the regulatory treatment is not equal to the accounting requirements.

The unified reporting date of the consolidated financial statements and consolidated regulatory figures of the Bank is 31 December of each respective year.

Interim separate financial statements

prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting as adopted by the European Union for the half year ended 30 June 2019

## **Own funds**

Own funds of an institution according to CRR consist of the sum of the Common Equity Tier 1 capital, Additional Tier 1 capital and Tier 2 capital of the institution. To assess the capital adequacy, each Tier of the capital after applying all prudential filters and deductions is expressed as a percentage of the total risk exposure amount.

The following table shows the structure of own funds according to implementing technical standards with regard to disclosure of own funds requirements for institutions according to Regulation (EU) No 575/2013 of the European Parliament and of the Council (the positions not relevant for the Bank were excluded):

# **Transitional provisions**

The transitional Provisions are not applied by the Bank.

## Own funds template

Disclosure requirements: Art. 437 (1) (d) (e) CRR

The Bank does not consider Art. 437 (1) (f) CRR for the calculation of own funds.

The table below presents the composition of the regulatory capital based on the Implementing Technical Standards on the disclosure of own funds published in the Official Journal of the EU. There are no transitional provisions that would affect the calculation of the own funds. The table is presenting own funds according to Basel 3 fully loaded regime.

The following table shows Own funds disclosure template according to Article 5 in Commission implementing regulation (EU) No 1423/2013:
