Earnings per share

Earnings per share constitute net profit/loss for the year attributable to owners of the parent divided by the average number of ordinary shares outstanding. Diluted earnings per share represent the maximum potential dilution (through an increase in the average number of shares) that would occur if all subscription and conversion rights granted were exercised (also see Note 30 Total equity). As in the previous year no subscription and conversion rights were outstanding during the financial year. Diluted earnings per share were equal to the basic earnings per share.

David O'Mahony (chairman), Mag. Jan Homan (vice-chairman), Paul Formanko, MBA (member), JUDr. Vazil Hudák (member), Mgr. Alena Adamcová (member) and Juraj Futák (member).

The Bank is subject to various regulatory requirements of local, Slovak regulatory bodies defined by Slovak legislation as well as European regulatory bodies defined by EU legislation.

The Bank is under direct supervision of the European Central Bank within a Single Supervision Mechanism.

Significant accounting policies

a) Basis of preparation

The interim separate financial statements of the Bank for the financial year ending on 31 March 2023 and the related comparative information were prepared in compliance with applicable International Financial Reporting Standards (IFRS) as adopted by the European Union on the basis of IAS Regulation (EC) No. 1606/2002.

The principal accounting policies applied in the preparation of these interim separate financial statements are set out in respective parts of these statements. These policies have been consistently applied to all the periods presented, unless otherwise stated.

Measurement bases or bases used in the financial statements (like amortised cost, fair value, etc.) are set out in respective parts of these statements.

These interim separate financial statements have been prepared on the basis that the Bank will be able to continue as a going concern for the foreseeable future.

The Bank is subject to regulatory restrictions on capital distributions stemming from the EU-wide capital requirements regulations applicable to all credit institutions based in the EU. The Bank does not have any other significant restrictions on its ability to access or use the assets and settle the liabilities of the Bank. Except as otherwise indicated, all amounts are stated in thousands of EUR ('EUR ths.'). The tables in this report may contain rounding differences.

These interim separate financial statements do not contain full information and disclosures as required in the complete set of financial statements as at year end and should be read in combination with separate financial statements for the previous accounting period. The separate financial statements for the year ended 31 December 2022 were signed and authorized for issue by the Board of Directors of the Bank on 27 February 2023 and are available at its registered office or on the web page.

The comparative amounts presented in these separate financial statements are those presented in the separate statement of financial positions as at 31 December 2022 and the separate statement of profit or loss and the separate statement of other comprehensive income for the quarter ended 31 March 2022.

These interim separate financial statements are not audited.

b) Accounting and measurement methods

Foreign currency translation

The interim separate financial statements are presented in Euro, which is the functional currency of the bank. The functional currency is the currency of the primary business environment in which an entity operates.

For foreign currency translation, exchange rates quoted by the central banks in each country are used. For the Bank with the Euro as functional currency, these are the European Central Bank reference rates.

i. Transactions and balances in foreign currency

Transactions in foreign currencies are initially recorded at the functional currency exchange rate effective as of the date of the transaction. Subsequently, monetary assets and liabilities denominated in foreign currencies are translated at the functional currency exchange rate as of the balance sheet date. All resulting exchange differences that arise are recognised in the statement of income under the line item 'Net trading result'. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as of the dates of the initial transactions, i.e. they do not give rise to exchange differences. Non-monetary items that are measured at fair value (such as equity investments) in a foreign currency are translated using the exchange rates at the date when the fair value is measured, thus the exchange differences are part of the fair value gains or losses.

c) Accounting judgements, assumptions and estimates

The interim separate financial statements contain amounts that have been determined on the basis of judgements and by the use of estimates and assumptions. The estimates and assumptions used are based on historical experience and other factors, such as planning as well as expectations and forecasts of future events that are currently deemed to be reasonable. As a consequence of the uncertainty associated with these assumptions and estimates, actual results could in future periods lead to adjustments in the carrying amounts of the related assets or liabilities. The most significant uses of judgements, assumptions and estimates are described in the notes of the respective assets and liabilities and relate in particular to:

- SPPI assessment of financial instruments (Chapter Financial instruments – Significant accounting policies)
- Business model assessment of financial instruments (Chapter Financial instruments – Significant accounting policies)
- Fair value of financial instruments (Note 16 Fair value of financial instruments)
- Impairment of financial instruments (Chapter Financial instruments – Significant accounting policies, Note 22 Credit risk)

d) Application of amended and new IFRS/IAS

The accounting policies adopted are consistent with those used in the previous financial year except for standards and interpretations that became effective for financial years beginning after 1 January 2023.

Performance / Return

1. Segment reporting

The segment reporting of the Bank is based on IFRS 8 Operating Segments, which adopts the management approach. Accordingly, segment information is prepared on the basis of internal management reporting that is regularly reviewed by the chief operating decision maker to assess the performance of the segments and make decisions regarding the allocation of resources. Within the Bank the function of the chief operating decision maker is executed by the Board of Directors. In addition, the Bank's segment reporting follows the standards of the Erste Group issued for the purpose to unify presentation, measurement and steering of the Group.

During the first quarter of 2023 there were no changes in the methodology of segment reporting in comparison with annual individual financial statements. For the complete set of disclosures related to segment reporting this interim individual financial statements should be read in combination with individual financial statements for the previous year in note 1.

Deposits from banks	1,173,628	1,196,589

Financial liabilities stemming from the TLTRO programme of the ECB are presented under 'Term deposits'. The Bank assessed an appropriate accounting treatment of the TLTRO. The conclusion was that such instruments do not qualify as below-market interest rate loans and therefore are not related to IAS 20 government grants accounting. The reason was that the TLTRO is considered as a interim separate market organised by the ECB as part of its monetary policy. As a result, the IFRS 9 amortised cost accounting treatment applies.

The carrying amount of the TLTRO III liabilities was EUR 1,003.4 million at the end of March 2023 (2022: EUR 999.7 million). In first quarter of 2023 the interest expense recognised for TLTRO III was EUR 3.7 million (31.3.2022: was recognised the negative interest expense for the TLTRO III in amount of EUR 4.2 million). Details for respective tranches and collateral information is disclosed in note 19 Collaterals.

In May 2020 the Bank issued retained covered bond in the value of 500 mil. EUR with interest rate 0.125% and maturity of 7.5 years, which was not placed in the market and according to IFRS is therefore not possible to recognize this bond in the statement of financial position. In June 2022, the Bank issued another retained covered bond in the value of 500 mil. EUR with an interest rate of 2.00% and maturity of 6 years, which was also not placed in the market and, according to IFRS, it is therefore not possible to recognize this bond in the statement of financial position. Subsequently these covered bonds were used as collateral for obtaining term deposit from TLTRO III. See also Note 19 Collaterals.

Fair value hedge of assets

As at 31 March 2023 the Bank held in portfolio of financial assets at amortised cost fixed rate bonds denominated in EUR with nominal value of EUR 291.2 million (2022: EUR 331.2 million). As the purchases of these bonds increased

exposure to interest rate risk in the period from five to fifteen years, the Bank entered into interest rate swap deals in order to hedge the changes of fair value caused by changes of risk-free interest rates, paying fixed and receiving floating rates.

During the first quarter of 2023 the hedges were effective in hedging fair value exposure to interest rate movements. During the period the Bank recognised a net loss on the hedging instruments in the amount of EUR 1.5 million (31.03.2022: net gain EUR 15.2 million). On the other hand, a net gain on the hedged item attributable to the hedged risk amounted to EUR 1.4 million (31.03.2022: net loss EUR 15.0 million).

Fair value hedge of liabilities

The Bank uses hedging to secure its issued fixed rate covered bonds (former mortgage bonds). The list of bonds is disclosed in the note 13 Financial liabilities at amortised cost. As at 31 March 2023 the Bank holds covered bonds in total nominal value of EUR 1,637.7 million (2022: EUR 1,638.7 million).

During the first quarter of 2023 the hedges were effective in hedging fair value exposure to interest rate movements. During the period the Bank recognised a net gain on the hedging instruments in the amount of EUR 10.0 million (31.3.2022: net loss EUR 26.0 million). On the other hand, a net loss on the hedged item attributable to the hedged risk amounted to EUR 10.3 million (31.03.2022: net gain EUR 26.0 million).

The financial assets pledged as collateral consist of loans and advances to customers, bonds and other interest-bearing securities. Collaterals were pledged as a result of refinancing transactions with the respective National Bank, loans backing issued mortgage bonds and other collateral arrangements.

In March 2021, the Bank entered into TLTRO III with central bank in the amount of EUR 1,000 million which was shown within other associated liabilities. At 23 November 2022 the Bank partially repaid this tranche in amount of EUR 250 million. The Bank has pledged SK government bond (EUR 24.9 million), own retained covered bond (EUR 1.000 million) where mortgage loans are shown as encumbered assets (EUR 1,112 million) as collateral to TLTRO III. The collateral is shown within other transferred assets.

In June 2021, the Bank entered into TLTRO III with central bank in the amount of EUR 250 million which is shown within other associated liabilities. The Bank has pledged SK government bonds (EUR 359.8 million) as collateral to TLTRO III. The collateral is shown within other transferred assets.

Risk and capital management

20. Risk management

During the 1. quarter of 2023 there were no changes in the methodology of risk management, accounting and reporting in comparison with annual individual financial statements. For the complete set of disclosures related to fair value this interim individual financial statements should be read in combination with individual financial statements for the previous year in note 22.

21. Own funds and capital requirements

Regulatory requirements

Since 1 January 2014 the Group has been calculating the regulatory capital and the regulatory capital requirements according to the Capital Requirements Regulation (CRR, Regulation (EU) No. 575/2013) and the Capital Requirement Directive (CRD IV, Directive (EU) 2013/36/EU). CRD was enacted in national legislation in Act on Banks 483/2001.

All requirements as defined in the CRR and technical standards issued by the European Banking Authority (EBA) are fully applied by the Bank for regulatory purposes and for the disclosure of regulatory information.

The Bank fulfilled all regulatory capital requirements during the year 2023 and throughout the year 2022 consisting of Pillar 1 requirement, Pillar 2 requirement and combined buffer requirement.

Accounting principles

The financial and regulatory figures published by the Bank are based on IFRS. Eligible capital components derive from the statement of financial position and income statement which were prepared in accordance with IFRS. Adjustments to the accounting figures are considered due to the different definitions in the scopes of consolidation:

The unified reporting date of the individual financial statements and individual regulatory figures of the Bank is 31 December of each respective year.

Own funds

Own funds according to CRR consist of CET1, additional tier 1 (AT1) and tier 2 (T2). In order to determine the capital ratios, each respective capital component – after application of all regulatory deductions and filters – is considered in relation to the total risk amount

The regulatory minimum capital ratios including the capital buffers as of 31 March 2023 amount to:

- 10.01% for CET1 (CET1 Pillar 1 requirement 4.5%, capital conservation buffer 2.5%, Other Systemic Important Institution (O-SII) buffer 2%, and countercyclical capital buffer specific for the bank 1.01%),
- 11.51% for tier 1 capital (sum of CET1 and AT1)
- 13.51% for total own funds.

Capital buffer requirements are set out in Act on Banks 483/2001

- capital conservation buffer Article 33b
- Global Systemic Important Institution (G-SII) Article 33a and Article 33d(5)
- Other Systemic Important Institution (O-SII) buffer Article 33a and Article 33d(6)
- systemic risk buffer Article 33a, Article 33e
- countercyclical buffer Article 33a, Article 33c

In addition to minimum capital ratios and capital buffer requirements, institutions also have to fulfil capital requirements determined in the Supervisory Review and Evaluation Process (SREP).

As a result of the 2021 SREP process performed by the European Central Bank (ECB) the Bank applies a Pillar 2 requirement (P2R) of 1.5% as of 31. March 2023. The minimum CET1 ratio of 5.34% encompasses the Pillar 1 minimum requirement of 4.5% and the Pillar 2 requirement of 0.84% (56.25% of 1.5%) as of 31. March 2023.

The regulatory minimum capital ratios including the capital buffers and SREP requirements as of 31 March 2023 amount to:

- a CET1 requirement of 10.83%, (Pillar 1 requirement of 4.5%, combined capital buffers of 5.51% and 56.25% of 1.5% Pillar 2 requirement)
- a T1 requirement of 12.63% (Pillar 1 T1 requirement of 6%, combined capital buffers of 5.51% and 75% of 1.5% Pillar 2 requirement)
- a total own funds requirement of 15.01% (Pillar 1 own funds requirement of 8%, combined capital buffers of 5.51% and 1.5% Pillar 2 requirement).

According to SREP, the bank is expected to meet a Pillar 2 Guidance (P2G) of 1.0%. The Pillar 2 Guidance is not MDA (maximum distributable amount) relevant.

22. Credit risk

During the 1. quarter of 2023 there were no changes in the methodology of accounting and reporting of credit risk in comparison with annual individual financial statements. There has been a methodological change in the credit risk reporting methodology; revocable credit facilities are also included in the credit risk exposure. For the complete set of disclosures related to fair value this interim individual financial statements should be read in combination with individual financial statements for the previous year in note 24.

Allocation of credit loss allowances is affected by the war in Ukraine. The Bank allocated credit loss allowances for the customers with higher risk profile based on their ratings and in case of corporates, the industry was also used. More detailed information about changes in collective assessment of credit loss allowances is provided in section Collective assessment.

War in Ukraine

The Ukraine-Russia war, intensified challenges for both risk and business divisions: a rally in energy prices on the one hand and disruptions in supply chains on the other hand. The first ones had implications on various industries, mainly those with energy intensive production processes, but also impacting segments with high fuel cost shares. Issues with supply chains are managed by affected clients with diverse measures aiming to safeguard the business activity and liquidity (amongst others: active working capital management, targeted stocking-up, output adaptation, renegotiations with off takers etc.), in some cases also by ensuring backup/liquidity financing. Developments as mentioned above are reflected in the regular updates of the industry strategies.

In June 2022, Bank implemented rules for stage overlays due to the war in Ukraine (UA war overlays) as a combination of industries with correlation to economic downturn (cyclical industries) and one-year IFRS PD. These rules were defined on top of existing criteria mentioned in the section 'Significant increase in credit risk determination – Qualitative criteria' (Stage 2 identification based on the early warning signal and negative information about geopolitical risk in March 2022). The table below shows volumes for the cyclical industries category.

In addition to cyclical industries, from September 2022 Bank has introduced additional Energy stage overlay due to the current distortions in the energy market with implications on gas/energy availability and price. Two-folds effects were identified. Effects of gas rationing/shortage on clients either due to energy intensive production processes or relying on gas as a primary input in their business processes. Vulnerability is driven by gas dependency, (limited) substitution possibilities and implications of a substitution on financials, hedging and price mechanisms. Within the industry Natural Resources and Commodities, Metals and Chemical subindustries were identified as being most affected. All companies belonging to the Energy sector as the whole industry can potentially be affected by the massive shortages and distortions in the current energy market: price volatility, margin calls, price caps, adverse weather environment for hydro power, fixed off-take contracts (putting off-takers at risk when stopped and / or limiting producers of renewable energy profiting from the higher prices), exceptional taxes, etc. All customers belonging to these industries / sub-industries were migrated to Stage 2.

Total exposure in Stage 2 of cyclical industries as of March 2023 is EUR 1,464 million. After applying rule for one-year IFRS PD the exposure relevant for cyclical overlays is EUR 676 million. Total exposure in Stage 2 of energy industries as of March 2023 is EUR 1,488 million. As no further rules are applied, this is also the amount in energy overlays.

Restructuring, renegotiation and forbearance

Restructuring means contractual modification of any of the customer's loan repayment conditions including tenor, interest rate, fees, principal amount due or a combination thereof. Restructuring can be business restructuring (in the retail segment), commercial renegotiation (in the corporate segment), or forbearance (e. g. concession due to financial difficulties) in line with EBA requirements in both segments.

Item Personnel balances and social fund mainly represents provisions for personnel costs, wage liabilities to employees and social fund contribution.

Item State budget, social and health insurance, taxes consist mainly of withholding tax and VAT tax payables that will be settled with state budget within next month.

28. Provisions

Provisions are liabilities with uncertain timing or amount. The statement of financial position line item 'Provisions' includes:

- provisions for defined employee benefit plans recognised based on requirements of IAS 19 Employee benefits
- provisions for loan commitments and financial guarantees recognised based on requirements for the expected credit loss model under IFRS 9; and
- remaining classes of provisions recognised in accordance with IAS 37 Provisions, contingent liabilities and contingent assets such as provisions or litigation, restructuring, commitments and guarantees not in scope of IFRS 9.

Following classes of provision can be distinguished in the business of the Bank:

EUR ths.	31.12.2022	31.03.2023

Provisions	38,972	45,536

Provision for commitments and financial guarantees given

Provisions for commitments and financial guarantees were created to cover losses expected in unused loan commitments, guarantees and letters of credits. The amount of these provisions is estimated with respect to credit risk relating to affected items, as well as time value of money (i.e. current market interest rates used for discounting).

The following table presents movements in the provision for commitments and financial guarantees:

Provisions for pending legal issues and tax litigation and other provisions

Provisions for legal issues relate to legal cases where the Bank is sued and which arose from normal banking activities. During the reporting period the Bank does not participate in any new passive legal cases.

The item 'Other provisions' includes provision on contribution to Resolution fund during the year. When the actual amount of contributions is announced, the payment is accounted for as utilization of particular provision. For actual year the Bank disclosed provision for Resolution fund contribution in amount of EUR 7.0 million (2022: EUR 6.0 million).

29. Contingent liabilities

To meet the financial needs of customers, the Bank enters into various irrevocable commitments and contingent liabilities. Even though these obligations may not be recognised on the statement of financial position, they do involve credit risk and are therefore part of the overall risk of the Bank (see Note 22 Credit risk).

Legal proceedings

The Bank is involved in legal disputes, most of which have arisen in the course of ordinary banking business. These proceedings are not expected to have a significant negative impact on the financial position or profitability of the Bank.

Investments in subsidiaries, associates and joint ventures

31. Subsidiaries

The Bank holds controlling interests in the subsidiaries described in the table below. In these interim separate financial statements, the subsidiaries are recognised at cost, less any impairment losses.

Subsidiaries are recognized on the statement of financial position from the date when control is obtained until the date when control is lost. Control is achieved when the Bank is exposed to, or has rights to, variable returns from its involvement with the subsidiary (the investee) and has the ability to affect those returns through its power to govern the relevant activities of this company. Relevant activities of the company are those which most significantly affect the variable returns of an entity.

The following table presents overview of the carrying amounts of investments in subsidiaries:

Changes in subsidiaries during the year 2022

In August 2022, the subsidiary company SLSP Seed Starter, s.r.o. was established. The Bank has an equity stake in it amount of EUR 0.5 million and this represents participation in the amount of 100% of the company's share capital.

32. Investments in associates and joint ventures

The Bank has significant influence in the associates and joint ventures described in the table below. In these interim separate financial statements the investments in associates and joint ventures are recognized at cost, less any impairment losses.

Investments in associates ('associates') and joint ventures ('joint ventures') represent entities over which the Bank exercises significant influence. Significant influence is the power to participate in financial and operating policy decisions of the investee but is not control or joint control of those policies.

The following table presents overview of the carrying amounts of investments in associates:

Other disclosure matters

33. Related-party transactions and principal shareholders

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. The Bank is controlled by the only shareholder Erste Group Bank AG, which directly owns 100% share on the voting rights of the Bank. Further related parties include subsidiaries, which are under control of the Bank, associates and joint ventures, over which the Bank has significant influence. Moreover, other members of the Erste Group are also related parties of the Bank.

Transactions with related parties occur in the normal course of business and primarily include loans and deposits. These transactions are performed at arm's length, i.e. the terms and conditions applied respect market conditions.
